## **Taste Of Thyme:**

A Taste of Thyme Margaret H. Gouge, 2005-12-01 John Meyer would never get to run with Steve Prefontaine The legendary distance runner died in a tragic car accident before John was born Yet Pre s legacy always inspired him John earned a running scholarship to Stradford University one of the elite Division I cross country schools There he would be teammates with the runner every major sports media called the next Pre More importantly it gave John the chance to put behind a troubled past and start a new life But past relationships come back to haunt and a bronzed god roommate a gorgeous brunette and the pressures to succeed plunge John to psychological depths he never dreamt possible No one seems to be able to help no one except for a mysterious shirtless runner on campus who seems oddly familiar A Run by the River will take you through amazing twists and turns the mind of a runner the schemes of a seemingly perfect roommate and fast paced running all that bring the story to its crash course finish For John things will never be the same again **A Taste of**

Max Your Immunity Pamela Wartian Smith, 2021-09-14 The word immunity has unfortunately become an all too common term in our vocabulary and for good reason When the pandemic hit many of the major drug companies created vaccines that offered us immunity against this specific virus Yet few of us understand that almost all these vaccines work based upon their activating our own built in systems of defense It is our very own immunity to

these viruses that can make the difference between illness and health To help clarify what each of us can do to protect ourselves and our loved ones Pamela Wartian Smith MD has written *Max Your Immunity* Here is a complete guide to understanding and maximizing your natural defenses against various infectious diseases *Max Your Immunity* is divided into three parts Part One explains how our innate and adaptive immunity systems work Our innate immunity system is based on our built in barriers designed to fight or separate us from infectious agents Our adaptive immunity also called acquired immunity is composed of lymphocyte cells that are triggered when a specific pathogen enters the body These cells learn to identify the invading pathogens and hunt them down In this section each component in both systems are clearly identified and explained Part Two provides ten important things that you can do to increase and strengthen all of these components And Part Three provides specific nutritional plans to increase your body s immunity to help defend against the most common health disorders By simply having a clear understanding of how our internal defenses work and what we can do to increase our immunity we can play an important role in maintaining good health *Max Your Immunity* can help show you what you need to know to protect yourself and your family
