

TATTING by Irene Waller

"With two shuttles and an inventive brain, there is no end to the designs that may be invented," wrote Lady Hoare in 1910, praising the ancient and beautiful craft of tatting. The purpose of this excellent book by the former Head of the School of Woven Textiles at Birmingham College of Art is to present tatting as an easily mastered art form eminently worthy of contemporary revival.

Irene Waller begins with the history of tatting, tracing its emergence from simple knotting – one of man's earliest textile techniques and of Eastern origin – into an exquisite technique favoured by the aristocracy of Europe in the eighteenth and nineteenth centuries. Extensively illustrated with 93 diagrams and 56 photographs, the book gives a thorough grounding in the technical aspect of its subject. It shows how the primary tatting knot may be mastered, and how basic shapes are made and then formed into fabric.

Irene Waller explains how the reader may proceed to more elaborate techniques, working with two shuttles and introducing variety in colour and texture. Finally, she considers the exciting creative potential of tatting. She gives advice and instruction on the development of purely abstract designs and on the creation of such varied practical objects as bikinis, hold-alls, necklaces and sandals.

Supplemented with a bibliography, list of suppliers and index, this comprehensive and concisely written book provides everything the reader – whether needleworker or novice – can possibly want to know on a fascinating subject.
