Action and Appearance Anna Yeatman, Charles Barbour, Phillip Hansen, Magdalena Zolkos, 2011-04-21 Action and Appearance is a collection of essays that look into the crucial and complex link between action and appearance in Hannah Arendt's political thought Contributed by respected scholars the essays articulate around the following themes the emergence of political action when questioning the nature of law subjectivity and individuality the relationship between ethics and politics the nexus of co appearance thinking and truth and Arendt's writing as action and appearance For Arendt action is a worldly public phenomenon that requires the presence of others to have any effect Therefore to act is more than to decide as it is also to appear Much has been said about Arendt's theory of action but little attention has been paid to her approach to appearance as is done in this volume Action and Appearance explores both Arendt's familiar texts and previously unpublished or recently rediscovered texts to challenge the established readings of her work Adding to established debates it will be a unique resource to anyone interested in Hannah Arendt political thought political theory and political philosophy

Social Policy and Practice in Canada Alvin Finkel, 2012-05-09 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism's attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in

British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty **Saskatchewan Politics** Howard A. Leeson, 2009 Accompanied by DVD videodisc entitled The 2006 08 throne and budget debates between NDP leader Lorne Calvert and Saskatchewan Party leader Brad Wall in jewel case **Redistributing Health** Thomas Allan McIntosh, Bonnie Jeffery, Nazeem Muhajarine, 2010 What too few people realize is that as Andre Picard writes in his Foreword to Redistributing Health social justice or lack thereof has a greater impact on the health of the population than the human genome lifestyle choice and medical treatment The truth is that things like poverty social exclusion lack of meaningful employment and lack of access to education or good housing contribute significantly to ill health in Canada and none of these will be remedied by doctors or hospitals or pill bottles Taxing Illusions Phillip Hansen, 2003 Countering recent interest in promoting tax cuts in Canada this study examines how taxation helps define the nature of a political community and the values of a political culture By comparing two Saskatchewan tax reports from the early 1960s and the late 1990s this treatise demonstrates how assumptions about taxation policy reflect and shape conceptions of democracy and citizenship and contends that tax cuts promote an individual centered rather than a society based policy that affirms community values **American Book Publishing Record** , 2005

Saskatchewan John W. Warnock, 2004 Isolation is part of the psyche of this sparsely populated prairie province and this abundance of great open space has uniquely shaped the people their politics their economy and their relationship with the rest of North America P Using the broad interdisciplinary social science approach of political economy analysis Warnock traces Saskatchewan s past in an attempt to understand the present and glimpse some of its future Along the way he tells the story of Saskatchewan from inception to centennial John Warnock author of *The Other Mexico* received his Ph D from the American University Washington D C School of International Service After working for the U S State Department he taught political economy at both American and Canadian universities most recently at the University of Regina **Canadian Books in Print. Author and Title Index** , 1975 *America, History and Life* , 2005 Article abstracts and citations of reviews and dissertations covering the United States and Canada *Canadian Books in Print* , 1975 Subject Index to Periodicals , 2009 **Tax Crusaders and the Politics of Direct Democracy** Daniel A. Smith, 2013-11-15 Daniel A Smith exposes the truth about the American tax revolt Contrary to conventional wisdom recent ballot initiatives to limit state taxes have not been the result of a groundswell of public outrage rather they have been carefully orchestrated from the top down by professional tax crusaders political entrepreneurs with their own mission These faux populist initiatives in contrast to genuine grassroots movements involve minimal citizen participation Instead the tax crusaders hire public relations firms and use special interest groups to do the legwork and influence public opinion Although they successfully tap into the pervasive anti tax public mood by using populist rhetoric these organizations serve corporate interests rather than groups of concerned

neighbors The author shows that direct democracy can ironically lead to diminished public involvement in government Smith looks at the key players following the trail of money and power in three important initiatives Proposition 13 in California 1978 Proposition 2 1 2 in Massachusetts 1980 and Amendment 1 in Colorado 1992 He provides a thorough history of tax limitation movements in America showing how direct democracy can be manipulated to subvert the democratic process and frustrate the public good

Taxation in Utopia Donald Morris, 2020-09-01 Taxation in Utopia explores utopian political philosophy from the neglected perspective of taxation At its core taxation is an ethical question It requires people to sacrifice for the benefit of others whether or not they also benefit themselves Donald Morris refers to this broader nonmonetary context as constructive taxation which includes restrictions on privacy and access to information constraints on marriage and child rearing and conventions restricting the proprietorship of land Morris examines this in the context of various utopian writings such as More's Utopia as well as literary treatments of these issues such as Bellamy's Looking Backward This interdisciplinary exploration of utopian taxation provides a novel approach to examining relations between a state's view of the general welfare and the sacrifices this view requires of its citizens

Defiance in Taxation and Governance Valerie A. Braithwaite, 2009-01-01 Valerie Braithwaite merges her considerable knowledge of a wide range of disciplines to produce an exemplar of interdisciplinary research The use of the taxation system as the basis for analysis of how people manage their relationship with authority is effective and produces a much needed addition to the behavioural literature While the book is primarily about defiance in taxation many instances of non taxation related defiance are included which provides excellent support and extension of the tax based arguments Braithwaite has produced an excellent example of a book that is grounded in the extant literature while expanding our understanding of the importance of understanding the behaviours that drive defiance The aim of the book is to show how authorities can live symbiotically with defiance and she achieves this superbly illustrating how improved satisfaction with the process can minimise defiance Lisa Marriott Pacific Accounting Review This innovative book presents a theory of tax defiance integrating five years of research on people's hopes fears and expectations of the tax system and the authority that administers it Valerie Braithwaite makes a major contribution to regulatory theory by mapping the psychological processes of defiance At the heart of the analysis is the concept of motivational posturing signals sent to indicate how favourably an authority is viewed and readiness to defer to an authority's demands The author explains how resistant defiance expresses disapproval of the way an authority operates and signals to government the need to improve performance to win back public confidence Resistance weakens as the authority claws back its institutional integrity Dismissive defiance on the other hand is challenging and undermining and is not so responsive The book argues for institutional reforms that are both mindful of grievance and of alternative authorities that challenge power It illustrates that in delivering institutional reform commitment to democratic principles and integrity of government will enable authorities to argue their case for community co operation where appropriate Finally the book goes on to show that power sharing is likely

to be a more apt remedy when dismissive defiance is entrenched Safeguarding these deliberations in mature democracies are moral obligation and social capital both of which are likely to erode when authorities show neither justice nor wisdom in handling defiance This unique and innovative example of how psychology can be integrated into new institutional theory and public policy practice will prove an interesting read for scholars students and researchers in the fields of regulatory studies economics public policy and public finance politics and psychology
