Ashanti Young and Y Shanda Young Rivera Other People s English Code Meshing Code Switching and African American Literacy presents an empirically grounded argument for a new approach to teaching writing to diverse students in the English language arts classroom Responding to advocates of the code switching approach four uniquely qualified authors make the case for code meshing allowing students to use standard English African American English and other Englishes in formal academic writing and classroom discussions This practical resource translates theory into a concrete road map for pre and inservice teachers who wish to use code meshing in the classroom to extend students abilities as writers and thinkers and to foster inclusiveness and creativity The text provides activities and examples from middle and high school as well as college and addresses the question of how to advocate for code meshing with skeptical administrators parents and students Other People s English provides a rationale for the social and educational value of code meshing including answers to frequently asked questions about language variation It also includes teaching tips and action plans for professional development workshops that address cultural prejudices   Approaches to Teaching the History of the English Language Mary Hayes,Allison Burkette,2017-08-29 The History of the English Language is a traditional course whose instructors are tasked with balancing various institutional curricular and student needs Additionally the course s prodigious subject poses challenges for new as well as veteran instructors It encompasses a broad chronological geographic and disciplinary scope and in the twenty first century classroom has come to account for English s transformative relationship with the internet and social media In Approaches to Teaching the History of the English Language experienced instructors explain the influences and ingenuity behind their successful teaching practices   *Forum* ,1990   *EIL Education for the Expanding Circle* Nobuyuki Hino,2018-03-14 The teaching of English in the Expanding Circle traditionally called EFL countries has long been regarded as having no choice but to follow Inner Circle or Anglo American norms both in pedagogy and language models This situation is in sharp contrast with that of the Outer Circle or ESL countries where the WE World Englishes paradigm coupled with post colonialism has liberated the users of indigenous Englishes from the norms of Anglophone native speakers Employing Japan as a primary sample this book proposes a new paradigm of EIL English as an International Language education by integrating relevant paradigms such as WE and ELF English as a Lingua Franca which enables users of English from the Expanding Circle to represent their own voices in international communication Various examples of actual classroom practice in EIL are also presented bridging the longstanding gap between theory and practice in this field
