reading Teaching English for the Real World you should be better prepared to deliver lessons that those you teach will forever be grateful for The book consists of four main sections English in context towards the GCSE choosing texts and technology matters It starts by putting English clearly into context through a range of current examples It urges teachers to consider the complex role English usage plays on everything from the side of a bus through tissue thin social media garish slideshows and perky TED talks to the hundreds of pages of research or official reports so often used as the basis for serious political policy and commercial decision making It will then examine the classroom status quo and instead of the unrealistic and damaging focus on experiment and creativity instead of requiring them to write newspaper articles stories or speeches the main deliverables in any English GCSE exam the book will argue that teachers should think carefully about how to connect what children write with who they are and where they really want to publish The next section deals with choices of texts There is a place for children to be taught to write well by example but there are challenging questions to ask about much of the material routinely chosen How often are texts and authors selected for study for reasons that have absolutely nothing whatsoever to do with knowledge or linguistic skill and everything to do with politics Even exam boards are guilty of this The final section examines the relationship between English and the technology real people use to produce it It reflects on how technology has impacted on the quality of the reading experience itself and argue that there is a crisis in reading in secondary schools with many children sailing through exams yet leaving school as disinterested and even poor readers And it suggests how teachers might approach introducing these different risks to children and equip them best to make sound judgements about the way they write and communicate for personal and employment purposes in adult life
