Magnus Christine Djerf, Legend has it that it all began with the two red twin stars On one star lived the giant Casper and on the other the giant Argon They had been at war for millennia when the goddess ruling over our entire world Botvid the Great had enough Being mighty and strong herself she bound the two stars together in the middle and gave each giant a rein to learn to work together If Casper pulled his rein he would swing both stars to the right and if Argon pulled his rein he would swing the stars to the left Botvid s plan didn t work as both giants pulled so uncontrollably on their reins that the stars collided with another world and all life on that world was divided between them Suddenly in addition to the unbreakable bond between the stars they had their own people to govern and now

a third star trailing behind them like a tail When Casper and Argon quarreled the tail swung so hard that it lashed them both and the only way to solve their problem was to make the tail even longer Together they set out to collide with more stars until the serpent dragon was born Although the tail was now so far away they sometimes got new lashes and every time the tail whipped a bit of their strength disappeared as sparks scattered Then Argon realized that if they took the dead from all the different worlds they could reach they could place them on the stars to help govern them It is said to be worst at the far end of the tail because every spark is a soul that dies instead of adding to Argon and Casper s strength When Casper and Argon died it is said that Karon came to life and he continues to bring the dead home He places them on the stars but on the tail those who are evil are placed and every time Karon now whips his tail and sparks fly it is the evil that disappears The 3rd New Ultra Book of Crossword Puzzles: The Perfect Companion for Solving Ailments Pasquale De Marco,2025-04-22 This book is a must have for any crossword puzzle enthusiast With over 400 pages of puzzles ranging from easy to challenging there s something for everyone to enjoy Whether you re a seasoned pro or just starting out this book will provide hours of entertainment and mental stimulation In addition to the standard crossword puzzles this book also includes a variety of themed puzzles such as movie crosswords music crosswords and sports crosswords These puzzles are a great way to test your knowledge of your favorite subjects while also enjoying a challenging puzzle This book is the perfect companion for rainy nights long car rides or any time you need a break from the hustle and bustle of life So sit back relax and let the puzzling begin This book is also a great resource for crossword puzzle fans who want to improve their skills The introduction provides a helpful overview of the basics of crossword puzzles including tips on how to solve them faster and more efficiently There is also a section on crossword puzzle construction which is a great way to learn more about how crosswords are made Whether you re a crossword puzzle novice or a seasoned pro this book has something to offer you So pick up a copy today and start enjoying the fun If you like this book write a review on google books *24 Nonfiction Passages for Test Practice* Michael Priestley,2001-12 Offers twenty four reproducible passages from high interest non fiction sources and provides a prereading question to assist students to focus on what they read along with a standardized practice test for grades six through eight *Sit and Solve Pencil Puzzles* Steve Ryan,2003-08 Books for the smallest room in the house That generate BIG sales It s clear people everywhere are sitting and solving That s why more than 110 000 copies of this amazing series have nearly jumped out of stores With their amusing shape great content and popular price these compilations are a must have on every puzzler s shelf And the quality of the problems games and trickery is absolutely superb and fabulously diverse Go for great word searches stimulating criss cross puzzles brilliant brainteasers cunning logic games cannily challenging IQ Tests mysterious mathamatricks and lots more **Vocabulary Puzzles & Activities, Grade 3** Teacher Created Resources,2008-01-04 **On Crosswords** T.
