Ghana Jeffrey Ahlman, 2023-10-05 Few African countries have attracted the international attention that Ghana has In the late nineteenth and early twentieth centuries the then colonial Gold Coast emerged as a key political and intellectual hub for British West Africa Half a century later when Ghana became the first sub Saharan state to emerge from European colonial rule it became a key site for a burgeoning transnational African anticolonial politics that drew activists freedom fighters and intellectuals from around the world As the twentieth century came to a close Ghana also became an international symbol of the putative successes of post Cold War African liberalization and democratization projects Here Jeffrey Ahlman narrates this rich political history stretching from the beginnings of the very idea of the Gold Coast to the country's 1992 democratization which paved the way for the Fourth Republic At the same time he offers a rich social history stretching that examines the sometimes overlapping sometimes divergent nature of what it means to be Ghanaian through discussions of marriage ethnicity and migration of cocoa as a cultural system of the multiple meanings of chieftaincy and of other contemporary markers of identity Throughout it all Ahlman distills decades of work by other scholars while also drawing on a wide array of archival oral journalistic and governmental sources in order to provide his own fresh insights For its clear comprehensive coverage not only of Ghanaian history but also of the major debates shaping nineteenth and twentieth century African politics and society more broadly *Ghana A Political and Social History* is a must read for students and scholars of African Studies

West African Soldiers in Britain's Colonial Army (1860-1960) Timothy Stapleton, 2022 *West African Soldiers in Britain's Colonial Army 1860-1960* explores the history of Britain's West African colonial army based in Nigeria Ghana Sierra Leone and the Gambia placing it within a broader social context and emphasizing as far as possible the experience of the ordinary soldier The aim is not to describe the many battles and campaigns fought by this force but to look at the development of the West African colonial army as an

institution over the course of about a century In pursuing this goal it is sometimes useful to employ the lens of military culture defined differently by scholars but essentially meaning a set of shared ideas and behaviors that inform daily life in the military While other locally recruited colonial militaries in Africa have attracted considerable attention from historians as they served as an essential pillar supporting European rule this book represents the first comprehensive scholarly study of Britain's West African army which was the largest such British led force south of the Sahara The study is based on extensive archival research conducted in nine archives located in five countries

Africa, Empire and Fleet Street Jonathan Derrick, 2018-03-15 For decades before and after

African independence the London weekly West Africa was a well known source of news analysis and comment on the region especially the former British territories Jonathan Derrick who worked on the magazine s staff in the 1960s and again in its final years before closure in 2003 here studies the earlier history of West Africa through the story of its largely forgotten editor Albert Cartwright from the magazine s founding in 1917 to Cartwright s retirement in 1947 Before editing West Africa Cartwright spent twenty years in South Africa making the headlines in 1901 when as editor of Cape Town s South African News during the Boer War he was jailed for a year for a war crimes allegation against Lord Kitchener Exploring Cartwright family papers and memories Derrick reveals the complex nature of a man who for three decades ran a colonial magazine but was appreciated by Africans as someone who genuinely understood them Derrick places the story of colonial era West Africa which would reach its greatest heights during the independence period within the wider landscape of British periodicals dealing with Africa in the nineteenth and twentieth centuries Anthropological Intelligence David H. The African Charter on Human and Peoples' Rights [2 Volume Set] Nat Rubner,2023 A landmark study of the African Charter on human and peoples rights one of the most important documents in modern African history that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document This set describes its underlying African origins and how the principles of the OAU influenced its path and content The Great Upheaval Judith A. Byfield,2021-07-09 This social and intellectual history of women s political activism in postwar Nigeria reveals the importance of gender to the study of nationalism and poses new questions about Nigeria s colonial past and independent future In the years following World War II the women of Abeokuta Nigeria staged a successful tax revolt that led to the formation first of the Abeokuta Women s Union and then of Nigeria s first national women s organization the Nigerian Women s Union in 1949 These organizations became central to a new political vision a way for women across Nigeria to define their interests desires and needs while fulfilling the obligations and responsibilities of citizenship In The Great Upheaval Judith A Byfield has crafted a finely textured social and intellectual history of gender and nation making that not only tells a story of women s postwar activism but also grounds it in a nuanced account of the complex tax system that generated the upheaval Byfield captures the dynamism of women s political engagement in Nigeria s postwar period and illuminates the centrality of gender to the study of nationalism She thus offers new lines of inquiry into the late colonial era and its consequences for the future Nigerian state Ultimately she challenges readers to problematize the collapse of her female subjects greatest aspiration universal franchise when the country achieved independence in 1960 Modernization as Spectacle in Africa Peter J. Bloom,Stephan F. Miescher,Takyyiwa Manuh,2014-05-09 For postcolonial Africa modernization was seen as a necessary outcome of the struggle for independence and as crucial to the success of its newly established states Since then the rhetoric of modernization has pervaded policy culture and development lending a kind of political

theatricality to nationalist framings of modernization and Africans perceptions of their place in the global economy These 15 essays address governance production and social life the role of media and the discourse surrounding large scale development projects revealing modernization s deep effects on the expressive culture of Africa **Making Men in Ghana** Stephan Miescher,2005-11-24 By featuring the life histories of eight senior men Making Men in Ghana explores the changing meaning of becoming a man in modern Africa Stephan F Miescher concentrates on the ideals and expectations that formed around men who were prominent in their communities when Ghana became an independent nation Miescher shows how they negotiated complex social and economic transformations and how they dealt with their mounting obligations and responsibilities as leaders in their kinship groups churches and schools Not only were notions about men and masculinity shaped by community standards but they were strongly influenced by imported standards that came from missionaries and other colonial officials As he recounts the life histories of these men Miescher reveals that the passage to manhood and a position of power seniority authority and leadership was not always welcome or easy As an important foil for studies on women and femininity this groundbreaking book not only explores masculinity and ideals of male behavior but offers a fresh perspective on African men in a century of change *The Apapa Six: West Africa from a 60S Perspective* John Berryman,2021-03-25 Here is a juxtaposition of the personal and inter communal dynamics focussed on the West African experience during the pivotal decade of the 1960s when National Independence demanded a reflexion on the definition of the new states and how external factors have borne heavily upon their past present and future The author blends his experience of study and travel in the region acknowledging his debt to the pioneering spirit of the School of Oriental and African Studies who facilitated the enterprise with an analysis of the challenges the new entities have faced and how they have fared nationally and globally in the light of Slavery Colonialism and Black Lives Matter *Boundaries, Communities and State-Making in West Africa* Paul Nugent,2019-06-06 By examining three centuries of history this book shows how vital border regions have been in shaping states and social contracts **French Colonialism Unmasked** Ruth Ginio,2006-12-01 Before the Vichy regime there was ostensibly only one France and one form of colonialism for French West Africa FWA World War II and the division of France into two ideological camps each asking for legitimacy from the colonized opened for Africans numerous unprecedented options French Colonialism Unmasked analyzes three dramatic years in the history of FWA from 1940 to 1943 in which the Vichy regime tried to impose the ideology of the National Revolution in the region Ruth Ginio shows how this was a watershed period in the history of the region by providing an in depth examination of the Vichy colonial visions and practices in fwa She describes the intriguing encounters between the colonial regime and African society along with the responses of different sectors in the African population to the Vichy policy Although French Colonialism Unmasked focuses on one region within the French Empire it has relevance to French colonial history in general by providing one of the missing pieces in research on Vichy colonialism Ruth Ginio is a research fellow at the Harry S Truman Research
