## Reading and writing Arabic

Arabic writing seems daunting at first sight, but it doesn't have to be. This book attempts to take the mystique out of it. You learn the alphabet in stages, practising each new letter or combination of letters many times before moving on to the next; at the same time you fit the letters into useful words and phrases seen everywhere in any Arab environment. This book is actual; you learn to read and write today's Arabic. And you learn through practice, from the start. That said, nobody can promise that when you have finished this book you'll be able to read a newspaper article, or write a report. That requires a knowledge of Arabic grammar going beyond our immediate scope. But you will be able to read and understand important signs and directions - even better, you will know what sort of words to expect. You will also be able to read and understand many newspaper headlines, and to write everything you can read.

## The Arabic language

Arabic is a world language. It is the official language, or one of the official languages, of nineteen countries spread across Saharan Africa and most of the Middle East. It is also one of the official languages of the United Nations. Arab culture has a high reputation, and is studied at countless universities in the western world.

Words in Arabic are built on a 'root' of three (occasionally four) consonants, which contain the basic idea underlying all the words made from the root. An example is the root consisting of the three consonants k t b, which has the basic idea of *writing*. From this root Arabic makes:

- the verb *kataba* to write
- the noun *kātib* for writer
- *maktūb* for *written* or for *letter*
- *kitāba* for the action of *writing*
- *maktab* for *office*, or the place where one writes
- *kitab* for *book*
- *maktaba* for *library* or *bookshop*, and so on.

**Criteria for Appraising Computer-based Simulations for Teaching Arabic as a Foreign Language** Richard Dabrowski, 2005 This was an exploratory study aimed at defining more sharply the pedagogical and practical challenges entailed in designing and creating computer based game type simulations for learning Arabic as a foreign language For those with neither access to study abroad nor classroom instruction or for those whose classroom instruction emphasizes grammar translation over communication the possibility now exists to learn to speak a foreign language in a virtual environment The basic pedagogical premise of digital game based learning is that it allows training to occur past the point of mastery to overlearning through the creation of an engaging virtual environment where the learner doesn't tire of the instruction Kaplan Sabol Wisner as stress diminishes the performance of all skills overlearning is essential for effective use of their limited knowledge Effective use of the language would foster confidence in the students of themselves as language learners that would ease their subsequent study of more difficult aspects of the language The latest advances in computer technology have made computer based language instruction both an ever more authentic approximation of a study abroad experience and something which potentially can be widely and conveniently distributed Abstract from DTIC web site **Read and Write Arabic Script** Mourad Diouri, 2016-11-01 Master Arabic script in which the Koran is written with this straightforward guide from Teach Yourself the No 1 brand in language learning Read and write Arabic script is a clear step by step guide to the written language with plenty of examples from real life texts to show how it works in context and lots of exercises to reinforce your learning This new edition has an easy to read page design Now fully updated to make your language learning experience fun and interactive You can still rely on the benefits of a top language teacher and our years of teaching experience but now with added learning features within the course and online Learn effortlessly with new easy to read page design and interactive features NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the author's many years of experience TEST YOURSELF Tests in the book and online to keep track of your progress *Introduction to Qur'anic Script* Syed Barakat Ahmad, 2013-01-11 Masterly work Leads the reader patiently but directly not merely into Qur'anic writing but into the heart of that Holy Book itself By the time we have followed Dr Ahmad to the end of this splendid work we have learned something new and indeed something uplifting about one of the world's great books Prof F E Peters New York University *How to pray salat (Goodword)* Saniyasnain Khan, 2015-01-24 **The Prophet Yusuf (Goodword)** Saniyasnain Khan, 2014-02-19 The Prophet Yusuf and the King's Dream is a beautifully illustrated and creatively written story taken from Prophet Yusuf's time in Egypt It will capture the interest of children both at home and in the classroom Islamic
