Teachers Exploring Tasks In English Language Teaching:

Teachers Exploring Tasks in English Language Teaching Jane Willis, 2004-11-30 Winner British Council Innovation in English Language Teaching Award 2006 This book was written for language teachers by language teachers with a view to encouraging readers to use more tasks in their lessons and to explore for themselves various aspects of task based teaching and learning It gives insights into ways in which tasks can be designed adapted and implemented in a range of teaching contexts and illustrates ways in which tasks and task based learning can be investigated as a research activity Practising language teachers and student professionals on MA TESOL Applied Linguistics courses will find this a rich resource of varied experience in the classroom and a stimulus to their own qualitative studies

Task-Based Instruction in Foreign Language Education Betty Lou Leaver, Jane R. Willis, 2004-12-30 Task based language instruction has proven to be highly effective but surprisingly underutilized Theory can only go so far and hands on experience can greatly speed and enhance the learning of a second language Nineteen talented instructors who have successfully implemented task based programs explain the principles behind the programs discuss how problems were resolved and share details on class activities and program design Each chapter takes the reader through the different stages in designing and setting up such programs adjusting them and appraising and testing them in normal classroom conditions This book covers TBI syllabus and program design and is based on actual classroom experience Any one of the courses or programs discussed can serve as models for others Many of the contributors are highly respected practitioners who are presenting their programs for the first time while others are regular participants in today's ongoing dialogue about teaching methods Full of concrete adaptable models of task based language teaching drawn from a number of countries and eleven different languages including Arabic Chinese Czech English French German Korean Spanish and Ukrainian Task Based Instruction in Foreign Language Education presents proven real world practical courses and programs and includes web based activities It demonstrates useful and practical ways to engage students far beyond what can be learned from reading textbook dialogue TBI involves the student directly with the language being taught via cognitively engaging activities that reflect authentic and purposeful use of language resulting in language learning experiences that are pleasurable and effective For all instructors seeking to help their learners enhance their understanding and grasp of the foreign language they are learning Task Based Instruction in Foreign Language Education is a rich and rewarding hands on guide to effective and transformative learning

Teacher Research in Language Teaching Simon Borg, 2013-03-28 Based on original research this book explores the fundamental relationship between research and practice in English language teaching Teacher Research in Language Teaching uses empirical evidence taken from an international survey of over 1 700 teachers and educational managers over a period of six years It examines their views of research whether they read ELT research and whether they do their own research The author goes on to explore the process which teachers go through in learning to do research and the research cultures within teaching institutions The book

concludes with a review of the key findings to emerge from the research and a discussion of strategies through which language teacher research engagement can be promoted more productively

The Transmission of Anglo-Norman Richard P. Ingham, Richard Ingham, 2012 This investigation contributes to issues in the study of second language transmission by considering the well documented historical case of Anglo Norman Within a few generations of the establishment of this variety its phonology diverged sharply from that of continental French yet core syntactic distinctions continued to be reliably transmitted The dissociation of phonology from syntax transmission is related to the age of exposure to the language in the experience of ordinary users of the language The input provided to children acquiring language in a naturalistic communicative setting even though one of a school institution enabled them to acquire target like syntactic properties of the inherited variety In addition it allowed change to take place along the lines of transmission by incrementation A linguistic environment combining the here and now aspects of ordinary first language acquisition with the growing cognitive complexity of an educational meta language appears to have been adequate for this variety to be transmitted as a viable entity that encoded the public life of England for centuries

Reflections on Task-Based Language Teaching Rod Ellis, 2018-06-18 Task based language teaching is now a well established pedagogic approach but problematic issues remain such as whether it is appropriate for all learners and in all instructional contexts This book draws on the author s experience of working with teachers together with his knowledge of relevant research and theory to examine the key issues It proposes flexible ways in which tasks can be designed and implemented in the language classroom to address the problems that teachers often face with task based language teaching It will appeal to researchers and teachers who are interested in task based language teaching and the practical and theoretical issues involved It will also be of interest to students and researchers working in the areas of applied linguistics TESOL and second language acquisition

Grammatical Theory and Metascience Esa Itkonen, 1978-01-01 In this book the author analyses the nature of the science of grammar After presenting some methodological and historical background he sets forth a theory of language and of grammar showing that the science of grammar is not an empirical but a normative science comparable to logic and philosophy characterized by the use of the method of explication

Recent Perspectives on Task-Based Language Learning and Teaching Mohammad Ahmadian, María del Pilar García Mayo, 2017-12-04 The last three decades have witnessed a growth of interest in research on tasks from various perspectives and numerous books and collections of articles have been published focusing on the notion of task and its utility in different contexts Nevertheless what is lacking is a multi faceted examination of tasks from different important perspectives This edited volume with four sections of three chapters each views tasks and Task based Language Teaching TBLT from four distinct but complementary vantage points In the first section all chapters view tasks from a cognitive interactionist angle with each addressing one key facet of either cognition or interaction or both in different contexts CALL and EFL ESL Section two hinges on the idea that language teaching and learning is perhaps best conceptualized understood and investigated within a complexity theory framework which accounts for the dynamicity and interrelatedness of the variables involved Viewing TBLT from a sociocultural lens is what connects the chapters included in the third section Finally the fourth section views TBLT from pedagogical and curricular vantage points
