The Geometry Of Art And Life 1946:

The Geometry of Art and Life Matila Ghyka, 2013-10 This is a new release of the original 1946 edition De Stijl Continued Jonneke Jobse, 2005 From 1958 to 1964 the journal Structure was a major platform for artists reconsidering the design tenets and underlying principles of the Bauhaus Constructivism and De Stijl This book explores the artists body of ideas in meticulous detail An Architecture of Parts: Architects, Building Workers and Industrialisation in Britain 1940 - 1970 Christine Wall, 2013-07-04 This book is unique in describing the history of post war reconstruction from an entirely new perspective by focusing on the changing relationship between architects and building workers It considers individual as well as collective interactions with technical change and in doing so brings together for the first time an extraordinary range of sources including technical archives oral history and visual material to describe the construction process both during and in the decades after the war It focuses on the social aspects of production and the changes in working life for architects and building workers with increasing industrialization in particular analysing the effect on the building process of introducing dimensionally co ordinated components Both architects and building workers have been accused of creating a built environment now popularly discredited architects responsible for poor design and building workers for poor workmanship However many of the structures and ideas underpinning this period of rapid change were revolutionary in their commitment to a complete transformation of the building process An Architecture of Parts adds to the growing literature on changes in the building world during and immediately after the Second World War It is significant both empirically and historically in its examination of the ideas technology and relationships that fired industrialization of the building process in mid century Britain *The Essential Paul Laffoley* Douglas Walla, 2016-05-09 Paul Laffoley is a Visionary artist who lives and works in a tiny space in Boston he calls the Boston Visionary Cell A trained architect Laffoley produces brilliantly colored mandala paintings filled with symbols and texts Each painting is accompanied by a text called a thought form which serves as commentary on the painting s content The paintings many of them large 73 x 73 inches have titles that range from the paranormal and arcane The Ectoplasmic Man The Sexuality of Robots to the erudite De Rerum Natura referring to the poet Lucretius Laffoley is interested in the mechanics of mysticism time and space dreams magic and consciousness In addition to painting he has also designed a time machine and a prayer gun This book collects what Laffoley and his gallerist Douglas Walla see as the essential works 94 color plates w 91 attendant thought forms It also includes an introduction by Walla a biography of Laffoley by artist Steven Moskowitz and essays by two scholars Linda Dalrymple Henderson University of Texas at Austin Art History is a renowned expert on Henri Bergson Duchamp the art science juncture and the fourth dimension Arielle Saiber associate professor of Italian Bowdoin College analyzes one Laffoley s major works Dante s Divine Comedy Triptych *Staying Open: Charles Olson's Sources and Influences* Joshua S. Hoeynck, 2019-05-03 Staying Open Charles Olson s Sources and Influences investigates the inter disciplinary influences on the work of the mid Century American poet

Charles Olson This edited collection of essays covers Olson s diverse non literary interests including his engagement with the music of John Cage and Pierre Boulez his interests in abstract expressionism and his readings of philosopher Alfred North Whitehead The essays also examine Olson s pedagogy which he developed in the experimental environment at Black Mountain College as well as his six month archeological journey through the Yucatan Peninsula in 1950 to explore the culture of the Maya This book will therefore be a strong research aid to scholars working in diverse fields music archeology pedagogy philosophy art and psychology as it outlines methods for close inter disciplinary work that can uncover the mechanics of Olson s creative literary processes Building on the straightforward scholarship of George Butterick whose Guide to the Maximus Poems remains indispensable for readers of Olson s work the essays in this volume will also guide readers through the thick allusions within The Maximus Poems itself New interest in the wide ranging and non literary nature of Olson s thought in several recent academic works makes this book both timely and necessary Physics Envy American Poetry and Science in the Cold War and After by Peter Middleton as well as Contemporary Olson edited by David Herd have started the process of uncovering the extent to which Olson s inter disciplinary interests inflected his poetic compositions Staying Open extends the preliminary investigations of Olson s non literary sources in those volumes by bringing together a community of scholars working across disciplines and within a wide variety of humanistic concerns

The Mysteries of the Great Cross of Hendaye Jay Weidner,Vincent Bridges,2003-12-10 Decodes the message held by this enigmatic monument revealing the alchemical secret of time and the fate of humanity Leonardo and the Last Supper Ross King,2012-08-30 For more than five centuries The Last Supper has been an artistic religious and cultural icon The art historian Kenneth Clark called it the keystone of European art and for a century after its creation it was regarded as nothing less than a miraculous image And yet there is a very human story behind this artistic miracle Ross King s Leonardo and the Last Supper is both a biography of one of the most famous works of art ever painted and a record of Leonardo da Vinci s last five years in Milan **Drawing (...) City (...) Body, Dwelling on Earth** Pedro Janeiro,2019-01-08 This international seminar s fifth edition dedicated to the theme Desenho Cidade Corpo Habitando a Terra Drawing City Body Inhabiting the Earth was held as a joint activity between this C I A U D F A U Lisboa Research Project the University of S o Paulo represented by the Maria Ant nia University Centre and the Faculty of Architecture and Urbanism of the Federal University of Juiz de Fora Its objectives were threefold To discuss how Drawing in of the City and the elements that identify it geographical area inhabitants natural landscape and or built landscape present desired or memorable facts and data are represented and identified through the presence and or action of the body in the form of gestures movements interventions displacements or permanence To problematise the association between Drawing and City from the starting point of the perception of the Body assuming this mediation as a condition for the particular construction of that relationship To identify the presence of the Body in the Representations Drawings of the City submitting this event or phenomenon to analysis aiming

for cognitive production The contributions will be of interest to artists academics and professionals in the fields of drawing and the arts architecture sociology philosophy urbanism and design *The Organizational Complex* Reinhold Martin,2005-09-23 A historical and theoretical analysis of corporate architecture in the United States after the Second World War The Organizational Complex is a historical and theoretical analysis of corporate architecture in the United States after the Second World War Its title refers to the aesthetic and technological extension of the military industrial complex in which architecture computers and corporations formed a network of objects images and discourses that realigned social relations and transformed the postwar landscape In depth case studies of architect Eero Saarinen s work for General Motors IBM and Bell Laboratories and analyses of office buildings designed by Skidmore Owings Merrill trace the emergence of a systems based model of organization in architecture in which the modular curtain wall acts as both an organizational device and a carrier of the corporate image Such an image of the corporation as a flexible integrated system is seen to correspond with a humanization of corporate life as corporations decentralize both spatially and administratively Parallel analyses follow the assimilation of cybernetics into aesthetics in the writings of artist and visual theorist Gyorgy Kepes as art merges with techno science in the service of a dynamic new pattern seeing Image and system thus converge in the organizational complex while top down power dissolves into networked pattern based control Architecture as one among many media technologies supplies the patterns images of organic integration designed to regulate new and unstable human machine assemblages

Visual Culture and Mathematics in the Early Modern Period Ingrid Alexander-Skipnes,2017-01-06 During the early modern period there was a natural correspondence between how artists might benefit from the knowledge of mathematics and how mathematicians might explore through advances in the study of visual culture new areas of enquiry that would uncover the mysteries of the visible world This volume makes its contribution by offering new interdisciplinary approaches that not only investigate perspective but also examine how mathematics enriched aesthetic theory and the human mind The contributors explore the portrayal of mathematical activity and mathematicians as well as their ideas and instruments how artists displayed their mathematical skills and the choices visual artists made between geometry and arithmetic as well as Euclid s impact on drawing artistic practice and theory These chapters cover a broad geographical area that includes Italy Switzerland Germany the Netherlands France and England The artists philosophers and mathematicians whose work is discussed include Leon Battista Alberti Nicholas Cusanus Marsilio Ficino Francesco di Giorgio Leonardo da Vinci and Andrea del Verrocchio as well as Michelangelo Galileo Piero della Francesca Girard Desargues William Hogarth Albrecht Dürer Luca Pacioli and Raphael [Selected Bibliography of Reference and Enrichment Material for the Teaching of Mathematics](#) Kenneth E. Brown,1952 [Circular - Office of Education](#) United States. Office of Education,1952 [The Pythagorean Theorem](#) Eli Maor,2019-11-19 An exploration of one of the most celebrated and well known theorems in mathematics By any measure the Pythagorean theorem is the most famous statement in all of mathematics In this book Eli Maor reveals the full

story of this ubiquitous geometric theorem Although attributed to Pythagoras the theorem was known to the Babylonians more than a thousand years earlier Pythagoras may have been the first to prove it but his proof if indeed he had one is lost to us The theorem itself however is central to almost every branch of science pure or applied Maor brings to life many of the characters that played a role in its history providing a fascinating backdrop to perhaps our oldest enduring mathematical legacy
