The People Trade Pacific Island Laborers And New Caledonia 1865 1930 Pacific Islands Monograph Series 16:

Voyaging Through the Contemporary Pacific David Hanlon, Geoffrey M. White, 2000-11-08 The Pacific has long been a site for debates over disciplinary approaches and the ethics and politics of research within neocolonial and postcolonial contexts This volume makes a significant contribution to these debates and to the related and ongoing exchanges concerning area studies the globalization of capitalism and its attendant cultural social and political effects In so doing the authors link work from the Pacific with theoretical and methodological issues raised in other areas of the globe This collection of the best from Contemporary Pacific will prove invaluable to scholars students and all interested in the study of history culture and identity in the Pacific and in post colonial societies everywhere

The People Trade Dorothy Shineberg, 1999-05-31 The story of the people from the New Hebrides Vanuatu and the Solomon Islands who left their homes to work in the French colony of New Caledonia has long remained a missing piece of Pacific Islands history Now Dorothy Shineberg has brought these laborers to life by painstakingly assembling fragments from a wide variety of scattered records and documents She tells the story of their recruitment then sketches the workers lives in New Caledonia describing the contractual arrangements the kinds of work they did their living conditions how they spent their free time the large numbers who sickened and died and the choice at the end of the contract to remain in the colony as free workers or to return home Throughout the book she throws light on the controversy about the recruiting of the Islanders were they kidnapped Or did they choose to leave home If so what motivated them Evidently the Islanders cheap labor contributed to the development of the French colony but how did the episode affect them and their homeland The People Trade offers readers a revealing new picture of a long neglected side of the Pacific Islands labor trade

The Other Side John Patrick Taylor, 2008-07-08 The Other Side is the first major ethnographic and historical study of the Sia Raga people of north Pentecost Island a region that was home to the late Father Walter Lini Vanuatu s first prime minister Exploring Raga social spatial and historical consciousness this richly poetic account provides important theoretical contributions to ongoing debates in Pacific anthropology about the relation between structure and history and place and time It reveals important insights into the convergence of indigenous and exogenous cosmologies and hegemonies historically and shows how these are implicated in contemporary social ritual and material cultural expressions These analyses engage with broader concerns relating to colonial and postcolonial identities political economy and globalization in island Melanesia The Other Side combines original and substantial ethnography with sophisticated theoretical reflection that will appeal broadly across the field of anthropology It will also be of considerable value to scholars of Pacific and Melanesian history politics and society The clear writing and entertaining narrative combine to create a work that is accessible to a wide audience The volume s critical and reflective analysis of anthropological research makes it a valuable teaching aid in courses that focus on ethnographic methods and writing Students in Pacific anthropology will find it especially useful 37

Anthropological Perspectives on Global Challenges Emma

Gilberthorpe,2024-03-28 This volume offers a snapshot of anthropological perspectives on global challenges Whilst it could not hope to represent the full scope of anthropological perspectives those that are presented highlight some of the critical flaws embedded in such an all encompassing notion The contributors reveal the possibilities of reimagining the ways in which challenges are understood and addressed and demonstrate how a combination of deep understanding of the past and collaboration cooperation and inclusive dialogue about the future can improve the chances of positive action The collection thus not only shows us that perspectives must change but also how that change might be realised Whilst the chapters are authored solely by anthropologists this book is not solely for anthropologists The book is illustrative of the practical and theoretical insights that anthropology can offer those individuals teams and policy and decision makers engaged in research mitigation and or intervention practices in relation to the global challenges Beyond academia it contributes to broader understandings of the challenges we collectively face at this point in time and how we might collectively and effectively address them

Mobilities of Return John Taylor,Helen Lee,2017-12-15 In recent decades the term mobility has emerged as a defining paradigm within the humanities For scholars engaged in the multidisciplinary topics and perspectives now often embraced by the term Pacific Studies it has been a much more longstanding and persistent concern Even so specific questions regarding mobilities of return that is the movement of people back to places that are designated however ambiguously or ambivalently as home have tended to take a back seat within more recent discussions of mobility transnationalism and migration This volume situates return mobility as a starting point for understanding the broader context and experience of human mobility community and identity in the Pacific region and beyond Through diverse case studies spanning the Pacific region it demonstrates the extent to which the prospect and practice of returning home or of navigating returns between multiple homes is a central rather than peripheral component of contemporary Pacific Islander mobilities and identities everywhere *Journal of Pacific Studies* ,2004 Ibss: Anthropology: 1999 Compiled by the

Jean-Marie Tjibaou, Kanak Witness to the World Eric Waddell, Pacific Islands Development Program (East-West Center), 2009 Jean Marie Tjibaou is arguably the most important post World War II Oceanic leader His intellectual abilities acute understanding of both Melanesian and European civilizations stature as a statesman commitment to nonviolence and vision for Melanesia s potential contributions to the global community have all contributed to the creation of a remarkable and enduring legacy Until now no substantial English language study has existed of Tjibaou who was assassinated in 1989 This intellectual biography of the Kanak New Caledonia leader takes an essentially chronological approach to his life from his beginnings in the mountains of northern New Caledonia and his studies at the Sorbonne to his leadership of the independence movement in the Territory The work focuses on the spiritual cultural and intellectual sources of Tjibaou s ideas and actions as well as on those who were a source of inspiration to him Particular attention is given to Tjibaou s sense of service the convergences and divergences he identified as existing between Melanesian and Western civilizations and the impact of metropolitan French politics on the situation in the Territory In addition the book explores the fracture between the Grande Terre and the Loyalty Islands one with deep historical roots that help explain why Tjibaou s assassin Djubelly W a

Chappell, 2013-10-31 In 1853 France annexed the Melanesian islands of New Caledonia to establish a convict colony and strategic port of call Unlike other European settler dominated countries in the Pacific the territory's indigenous people remained more numerous than immigrants for over a century Despite military conquest land dispossession and epidemics its thirty language groups survived on tribal reserves and nurtured customary traditions and identities In addition colonial segregation into the racial category of canaques helped them to find new unity When neighboring anglophone colonies began to decolonize in the 1960s France retained tight control of New Caledonia for its nickel reserves reversing earlier policies that had granted greater autonomy for the islands Anticolonial protest movements culminated in the 1980s Kanak revolt after which two negotiated peace accords resulted in autonomy in a progressive form and officially recognized Kanak identity for the first time But the near parity of settlers and Kanak continues to make nation building a challenging task despite a 1998 agreement among Kanak and settlers to seek a common destiny This study examines the rise in New Caledonia of rival identity formations that became increasingly polarized in the 1970s and examines in particular the emergence of activist discourses in favor of Kanak cultural nationalism and land reform multiracial progressive sovereignty or a combination of both aspirations Most studies of modern New Caledonia focus on the violent 1980s uprising which left deep scars on local memories and identities Yet the genesis of that rebellion began with a handful of university students who painted graffiti on public buildings in 1969 and such activists discussed many of the same issues that face the country's leadership today After examining the historical cultural and

intellectual background of that movement this work draws on new research in public and private archives and interviews with participants to trace the rise of a nationalist movement that ultimately restored self government and legalized indigenous aspirations for sovereignty in a local citizenship with its own symbols Kanak now govern two out of three provinces and have an important voice in the Congress of New Caledonia but they are a slight demographic minority Their quest for nationhood must achieve consensus with the immigrant communities much as the founders of the independence movement in the 1970s recommended *Historical Abstracts* ,2000 *Anthropos* ,2000 **Choice** ,2000
