Norwegian: A Comprehensive Grammar Philip Holmes, Hans-Olav Enger, 2018-04-27 Norwegian A Comprehensive Grammar is a complete reference guide to modern Norwegian the Bokmål standard The Grammar is an essential source for the serious student of Norwegian and for students of comparative linguistics It is ideal for use in colleges universities and adult classes of all types The volume is organised to promote a thorough understanding of Norwegian grammar It presents the complexities of Norwegian in a concise and readable form Explanations are full clear and free of jargon Throughout the emphasis is on Norwegian as used by present day native speakers An extensive index numbered paragraphs cross references and summary charts provide readers with easy access to the information they require *Spoken Norwegian, Basic Course: Units 1-12* Einar Haugen, 1944 The Phonology of Norwegian Gjert Kristoffersen, 2000 At the end of the fourteenth century Norway having previously been an independent kingdom became by conquest a province of Denmark and remained so for three centuries In 1814 as part of the fall out from the Napoleonic wars the country became a largely independent nation within the monarchy of Sweden By this time however Danish had become the language of government commerce and education as well as of the middle and upper classes Nationalistic Norwegians sought to reestablish native identity by creating and promulgating a new language based partly on rural dialects and partly on Old Norse The upper and middle classes sought to retain a form of Norwegian close to Danish that would be intelligible to themselves and to their neighbours in Sweden and Denmark The controversy has gone on ever since One result is that the standard dictionaries of Norwegian ignore pronunciation for no version can be counted as received Another is that there has been considerable variety and change in Norwe Spoken Norwegian Einar Haugen, Kenneth G. Chapman, 1982 **Beginner's Norwegian** Laura Žiūkaitė-Hansen, 2005 Tips on how to study Norwegian and the rudiments of pronunciation provide learners with the basic tools for self instruction Each of the 13 lessons is designed with the novice language learner in mind and moves from day to day dialogue to a comprehensive breakdown of the grammatical elements contained in the previous dialogue Important cultural notes give a context to the user while exercises reinforce newly acquired concepts and terminology at the end of each chapter The appendix contains a full glossary commonly heard Norwegian expressions and a key to the exercises Includes 2 companion CDs *From Southern Theory to Decolonizing Sociolinguistics* Ana Deumert, Sinfree Makoni, 2023-07-07 This book which combines scholarly articles with interviews seeks to imagine a decolonized sociolinguistics All the chapters are firmly grounded in southern approaches to knowledge production focusing not only on epistemology but also on the complex relationship between epistemology and ontology The chapters address issues ranging from author positionality to the central theorists of a southern sociolinguistics and roam from the language classroom to the church in ways which invite us to begin to decolonize ourselves and rethink normative assumptions about everything from academic writing to research methods and language teaching The book provides scholars and teachers with inspiration for

how to teach linguistics in ways that challenge colonial hegemonies and that allow one to do sociolinguistics otherwise It also makes a powerful argument that debates about decolonization southern theory and social justice are not just academic pursuits what is at stake is our future and how we imagine it
