Ten Growing Soviet Churches:

Ten Growing Soviet Churches Lorna Bourdeaux, Michael Bourdeaux, 1987 **Evangelism through the Local Church** Michael Green, 2023-09-28 A comprehensive guide to practical evangelism its biblical basis theological backbone and current practice Michael Green draws from a lifetime s experience in this seminal work on the theory and practice of evangelism Green shows how the good news of Christ is communicated most effectively through the local church This comprehensive resource includes a primer on Christian apologetics and concrete suggestions for congregations and individuals sharing the gospel Green challenges the hang ups which so often accompany the very mention of evangelism His classic work will continue to inspire new generations of evangelists **Factors Behind the Ukrainian Evangelical Missionary Surge from 1989 to 1999** John Edward White, 2020-03-16 Throughout its history the Soviet Union was one of the most closed places in the world to missionary work As perestroika came in the late 1980s and the Soviet Union fell in 1991 a spiritual vacuum formed as massive numbers of people became interested in Christianity An unprecedented freedom allowed evangelicals to engage in missionary work Much has been written about foreign evangelical missionary work during this period but virtually nothing has been written about nationals doing ministry This book examines the remarkable surge in Ukrainian evangelical missionary work from 1989 to 1999 Both Baptists and Pentecostals engaged in a wave of missions flowing from Ukraine to the end of the earth Siberia What were these pioneering missionaries like What motivated them What enabled them to do what had been forbidden for so long What legacy did they leave for us today What can we learn from their example for future missions This book also looks at how a surge in missions takes place analyzing the factors behind the Ukrainian evangelical missionary surge by looking at different models for change Here we consider what steps can we take to help bring about new missionary surges **The History of the Russian Church in Australia** Michael A. Protopopov, 2021-09-01 In the pages of this book the history of the Russian Orthodox Church in Australia is diligently chronicled within the wider context of the place of ethnic Russians in a dominantly anglophone society that of what was at first a British colony and later became an independent state It begins with the first contact of Russian naval ships with the Australian continent in the early nineteenth century and progresses through to the establishment of the first parish of Orthodox believers in Melbourne in the 1890s the establishment of further churches and ultimately the creation of a diocese The catalyst for much of this was the arrival of thousands of Russians fleeing their homeland via Siberia after the Bolshevik revolution of 1917 For these newly dispossessed Australia and New Zealand became havens of safety and the Russian Orthodox Church an echo of the Motherland they had lost They were later joined by successive waves of fellow Russians after the end of World War II in 1945 and again after the fall of the Soviet Union in 1991 Together these refugees and their descendants created a unified organism that retained a sense of shared heritage and purpose and in turn provided a home to spiritual seekers who were not of their ethnic lineage In writing this work the author has drawn on extensive archival sources

spread over several continents together with his own life experience having arrived as a small boy in Australia over six decades ago First published in 2006 this new edition includes an added chapter recounting the ongoing story from the beginning of the twenty first century through to the end of 2020 covering the effects on the Church in Australia of major world events as diverse as the reunification of the Russian Church Abroad with the Patriarchate of Moscow in 2007 and the global coronavirus pandemic that arrived in Australia in 2020

Protestantism and Politics in Eastern Europe and Russia Sabrina P. Ramet, 1992 Coming at a time of enormous transformations in the one time Communist bloc this volume provides a much needed perspective on the significance of church state relations in the renaissance of civil society in the region The essays collected here accentuate the peculiarly political character of Protestantism within Communist systems With few identifiable leaders a multiplicity of denominations and a tendency away from hierarchical structures the Protestant churches presents a remarkably diverse pattern of church state relations Consequently the longtime coexistence of Protestantism and Communism in Eastern Europe and the former Soviet Union affords numerous examples of political accommodation and theological adaption that both reflect and foreshadow the dramatic changes of the 1990s Based on extensive field research including interviews with notable figures in the Protestant churches in the region the essays in this volume address broad
