Buchan, 1985 **The Reason why : Natural History** Robert Kemp Philp, 1860 **The Curious History of Love** Jean-Claude Kaufmann, 2011-12-12 The one emotion that matters most to many people is the one about which social thinkers rarely speak love For many people love is the thing that matters most in their lives they are searching for love hoping to find in love a kind of happiness that they cannot find in their work or by surrounding themselves with material goods But where does this peculiar and powerful blending together of love and happiness come from and why do we find it such a compelling idea today In this short book Jean Claude Kaufmann offers a fresh account of the history of a feeling unlike any other The modern idea of love as passion was born in the 12th century but it was marginalized by the rise of a kind of instrumental calculating reason that became increasingly central to modern societies As calculating reason began to encroach on the personal domain many individuals sought to escape from it searching for happiness elsewhere As our societies become dominated by calculating reason and selfish individualism we search elsewhere for the kind of happy love that will heal all

our wounds This is why we experience so many changes of heart in our personal lives at times we are coldly calculating and then a few moments later we sacrifice ourselves to love without a second thought Written by one of France's leading sociologists this highly readable book sheds new light on love and happiness and will resonate with many readers The Origins of Love and Hate Ian Dishart Suttie,1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company *Created Equal* Robert S.
