Tender Consciousness Sentimental Sensibility In The Emerging Artist Sterne Yeats Joyce And Proust:

Paradox of Modernism Robert Scholes, 2008-10-01 In this lively personal book Robert Scholes intervenes in ongoing discussions about modernism in the arts during the crucial half century from 1895 to 1945 While critics of and apologists for modernism have defined modern art and literature in terms of binary oppositions high low old new hard soft poetry rhetoric Scholes contends that these distinctions are in fact confused and misleading Such oppositions are instances of paradox an apparent clarity that covers real confusion Closely examining specific literary texts drawings critical writings and memoirs Scholes seeks to complicate the neat polar oppositions attributed to modernism He argues for the rehabilitation of works in the middle ground that have been trivialized in previous evaluations and he fights orthodoxy with such paradoxes as durable fluff formulaic creativity and iridescent mediocrity The book reconsiders major figures like James Joyce while underscoring the value of minor figures and addressing new attention to others rarely studied It includes twenty two illustrations of the artworks discussed Filled with the observations of a personable and witty guide this is a book that opens up for a reader's delight the rich cultural terrain of modernism

Tender Consciousness Laura Jane Riss, 2002 Tender Consciousness studies how Sterne's eighteenth century model of British sentimentality is manifest in modernist Kierkegaard Yeats's memoir as well as Joyce's and Proust's novels trace innate artistic growth To show how aesthetic sensibility develops the authors focus on the search for artistic identity through language and sensory perception which release memory and spurs imagination mediated by intellect They present a childhood vision of the world by recalling character revealing gestures and by depicting how precocious sensitivity to language signals the budding sentimental sensibility of these writers

Critical Companion to James Joyce A. Nicholas Fargnoli, Vice-President of the James Joyce Society and Professor of Theology and English A. Nicholas Fargnoli, Michael Patrick Gillespie, Professor of English Michael Patrick Gillespie, 2014-05-14 Examines the life and writings of James Joyce including a biographical sketch detailed synopses of his works social and historical influences and more

Life After Death Karen Bloom Gevirtz, 2005 Life After Death shows how representations of the widow in the eighteenth century novel express attitudes toward emerging capitalism and women's participation in it Authors responded to the century's instability by using widows who had the right to act economically and self-interestedly to teach women that virtue meant foregoing the opportunities that the changing economy offered Novelists thus helped to create expectations for women that linger today and established the novel as a cultural arbiter The first study of widows in the developing novel Life After Death also takes the next step in merging genre gender and economic criticism

Joseph Conrad and the Reader A. Acheraïou, 2009-10-21 Joseph Conrad and the Reader is the first book fully devoted to Conrad's relation to the reader visual theory and authorship This challenging study proposes new approaches to modern literary criticism and deftly examines the limits of deconstructionist theories introducing groundbreaking new theoretical concepts of reading and reception

The Passions of Modernism Anthony Cuda, 2010 This title offers an alternative approach to modernism as confronting

helplessness and passivity Upending the traditional view of modernism as defined by elitism skepticism and emotional detachment Anthony Cuda argues that there is another view beneath this facade one that emphasizes modernism's deep commitment to understanding human vulnerability powerlessness and the unpredictable energies of passion In *The Passions of Modernism* Cuda explores how four modernist writers T S Eliot W B Yeats Virginia Woolf and Thomas Mann conceptualize passion how they dramatize its upheavals and illuminations and how it affects their ideas about the creative act Resuscitating the classical definition of passion from the Latin *passio* to be moved or to be acted on Cuda's study suggests that the modernist attraction to passivity arises from a desire to gauge the limits of the active mind and to rethink psychology aesthetics and theories of creativity from the perspective of the moved instead of the mover Focusing on well known texts as well as uncollected and archival materials Cuda sheds new light on four canonical writers by examining their work in terms of passion scenes vivid intense tropes situated somewhere between exhilaration and terror that recur with insistent regularity over an artist's entire career exerting an unusual psychological force on the creative mind that conjures them
