Spiritual Foundation Of Morality The:

The Spiritual Foundation of Morality Rudolf Steiner, 1995 Moral teaching and moral preaching cannot establish morality It is only by delving into the hidden secrets of life that we can advance not just to moral doctrines but to the moral sources of life true moral impulses At different times humanity has manifested moral life in different ways To understand these differences the evolution of consciousness must also be taken into account Originally morality was a part of human nature for in their essence human beings are good But through evolution there have come errors deviations times of falling away In this small much loved cycle of three lectures Rudolf Steiner indicates the sources for the recovery of a living morality for our time Rudolf Steiner shows the transformation of the virtues through the evolution of consciousness and above all through the incarnation of the Christ in the Mystery of Golgotha Since then morality works to build up Christ s being

Steiner, 1995-10-01 Laurence Oliphant is one of the great unknown personalities of the nineteenth century and indeed of recent cultural history at large He was born at Cape Town in 1829 and died near London in 1888 He left behind some twenty books including novels travel accounts and mystical spiritual writings He was diplomat traveler adventurer writer and mystic At the beginning of the 1860s the period of Oliphant s great spiritual transition began when he met the Swedenborgian

Thomas Lake Harris It was Oliphant's last works *Sympneumata* and *Scientific Religion* that prompted Rudolf Steiner to pursue karmic research on Oliphant As a result Steiner revealed the karmic relationship between the lives of Oliphant and the Roman poet Ovid In an August 24 1924 lecture in London Steiner commented that Oliphant's individuality is significant not only because of the previous Ovid incarnation but also because of its activity in the interval between the two incarnations Looked at in the light of spiritual research on the subject Oliphant's life assumes dimensions of world historical interest When a Stone Begins to Roll contains extensive selections from Oliphant's autobiographical book *Episodes in a Life of Adventure* or *Moss from a Rolling Stone* 1887 In addition to the insightful commentary of T H Meyer the book also offers a generous sampling of Oliphant's complex and compelling work as well as hitherto unpublished material and the satire *The Sisters of Tibet* *Christ and the Human Soul* Rudolf Steiner, 2023-07-05 10 Lectures in Copenhagen and Norrköping May 23 30 1912 July 12 16 1914 CW 155 Spiritual science does not want to replace Christianity rather it aims to be the instrument through which the meaning of Christianity can be grasped And one thing that will become particularly clear through spiritual science is that the being whom we call Christ must be recognized as the center of life on earth and that what we call the Christian faith is the ultimate religion the eternal religion for the future of the earth Rudolf Steiner July 13 1914 This collection of lectures from 1912 and 1914 offers a deepened understanding of the being of Christ the divine Logos in his connection with individual human souls From religious figures such as John the Baptist and Saint Francis to the twentieth century poet Christian Morgenstern these lectures reveal how Christ works with and through all who seek him The Pauline statement Not I but Christ in me becomes an inner guide by which each human soul can find a way to intimate union with the Christ being It is he who has the power to make our ideals and goals in life if they are worthy into true seeds of future reality The time of faith has come and gone Christ needs our conscious striving our effort to understand within the heart's deep core his ongoing presence and activity in the further evolution of our spiritual Earth and in our journey toward humanness These lectures are a comfort and a signpost for the soul to walk the inner path of communion with Christ for the healing and redemption of the earth We may be able in the end to redeem the karma accrued by our own individual souls but for our spiritual work to be fruitful for all humanity it must be brought into connection with Christ What we take into ourselves in such a way that it is done from the perspective of Not I this is what Christ makes into a common possession for all humanity July 14 1914 To know Christ means to undergo the school of selflessness Under the influence of materialism the selflessness of humanity was lost in a way as will be understood in future ages of humanity However through absorption in the Mystery of Golgotha the penetration of the knowledge of the Mystery of Golgotha with our whole feeling and soul being we can once again acquire a culture of selflessness We can come to understand that what Christ did for the development of the Earth is contained in the fundamental impulse of selflessness and that what he can become for the conscious development of the human soul is the school of selflessness Rudolf Steiner June 1 1914 To read these lectures is to strike out

on the heart's path of fellowship with the living Christ This book is a translation from German of *Christus und die Menschliche Seele über den Sinn des Lebens Theosophische Moral Anthroposophie und Christentum* GA 155 3rd ed Rudolf Steiner Verlag Dornach Switzerland 1994 Cover image *Salvator Mundi* 1499 1510 by Leonardo da Vinci [The Spiritual Foundations of Society](#) Semen Liudvigovich Frank, 1877 1950 wrote major works on epistemology ontology philosophy of religion and social philosophy As a youthful Marxist he was arrested and banned from major Russian cities for his radical activities Becoming dissatisfied with Marxism he soon turned to idealism and then to religious philosophy Professor of Philosophy at Moscow University until 1922 when he was expelled to the West Frank worked in exile until his death in London in 1950 *The Spiritual Foundations of Society* is Frank's attempt to examine society as a type of spiritual being to develop an ontology of society Two ideas are central to his vision of future social thought The first of these sobornost from the Russian sobirats to gather is the living inner organic unity of all human societies Its primary form is the family unit Opposed to sobornost is obshchestvennost obshchyi general or common the mechanical aspect of society in which the separate parts act to mutually limit and constrain one another The second idea is the principle of service as the most general expression of the ontological essence of man and therefore the highest normative principle of social life According to Frank all human rights are grounded in one innate right the right to fulfill obligations the opportunity to serve Thus Frank reconciles the principles of solidarity and individual freedom through common subordination to the principle of service Though writing in the late twenties Frank addresses fundamental concepts of the ground of social life applicable to all periods of history His introduction of concepts from the Russian tradition enables us to see problems in a new light and his approach focused on concepts of community and service challenges the now dominant materialistic and naturalistic theories of the nature of social life

Man's Soul + Spiritual Foundations of Society Semyon Ludvigovich Frank, *Wealth without work Pleasure without conscience Science without humanity Knowledge without character Politics without principle Commerce without morality Worship without sacrifice* <https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html> Personal Life and Social Construction Religious Foundations of Society *The Intelligible World* James Lawler, 2014-09-26 Understanding Kant's pre-critical philosophy is central to appreciating his three critiques Overshadowed by the critiques the early work stands on its own as a central contribution to the development of the philosophy of its time In addition it not only prepares the way for the critiques but constitutes a hidden background without which they cannot be adequately understood Here we find Kant's great cosmology which is what Kant later regarded as the thing in itself persisting behind his notions of the noumenon the intelligible world and the postulates of morality Although he finally decided that his grand cosmological vision could not be demonstrated what cannot be strictly known can still be conjectured justifiably believed or postulated Kant's only possible proof for the existence of God remains implicit in the first critique The only writer about whom Kant ever dedicated a major work *Dreams of a Spirit Seer* Elucidated by *Dreams of*

Metaphysics was Emanuel Swedenborg Kant here explores a conjectural metaphysics of matter and spirit and further formulates the meaning of the intelligible world providing the ontological framework of his later ethics If only one of Swedenborg's documented spirit seeings was valid how feeble must the metaphysical dreams of philosophers themselves seem **Principles of the Commonwealth. A Treatise** Edmund Lawrence,1884 **The Economics of Peace** J. Frederick Arment,2014-11-19 From the Arab Spring to the Occupy and Tea Party movements the What now solution to economic disparity and power politics has been largely unarticulated This work details how the Golden Rule ethic and a technology driven global consciousness are causing epic shifts in our economic and governing systems The evolution from nation state capitalism to a collaborative economy with judicial governance is proving that prosperity is compatible with peace With ten case studies of successful Golden Rule organizations and an innovative study of the reciprocal ethic this book provides accessible thought provoking analysis of rapid worldwide change and forecasts a future of freedom purpose and hope

Evangelicals and the Continental Divide Samuel Harold Reimer,2003 In *Evangelicals and the Continental Divide* Sam Reimer finds surprising levels of uniformity among evangelicals on both sides of the border He shows that both American and Canadian evangelicals share highly similar religious identities central beliefs moral and subcultural boundaries and social attitudes Reimer found that American evangelicals did not distinguish themselves through greater conservatism or greater commitment but did connect politics and faith to a much greater extent than their Canadian counterparts while evangelicals in Canada evinced greater tolerance He argues that these differences point to an enduring importance of national historical and cultural differences whereas regional differences are not as significant Using data obtained from 118 in depth interviews with evangelicals in both countries as well as a representative poll of 3 000 Canadians and 3 000 Americans Reimer details the inner workings of the evangelical subculture and gives us an understanding of evangelical similarities and differences across the two nations
