Stalin Man And Ruler:

Stalin Robert Hatch McNeal,1989 **Stalin Man and Ruler** Robert Mcneal,1990-12-01 Stalin Robert H. McNeal,1988-06-18 *Stalin on Linguistics and Other Essays* P. Gray,2002-05-21 Piers Gray was one of the most brilliant literary writers of his generation These essays ranging from Oscar Wilde to Levin from Shakespeare to pulp fiction use the full resources of literary and linguistic analysis to produce a reading of European culture and society in the twentieth century In his final posthumous essay On Linearity Gray summons all his reading and knowledge to deliver his final judgement on life and death **Stalin's Wars** Geoffrey Roberts,2006-01-01 This breakthrough book provides a detailed reconstruction of Stalin s leadership from the outbreak of the Second World War in 1939 to his death in 1953 Making use of a wealth of new material from Russian archives Geoffrey Roberts challenges a long list of standard perceptions of Stalin his qualities as a leader his relationships with his own generals and with other great world leaders his foreign policy and his role in instigating the Cold War While frankly exploring the full extent of Stalin s brutalities and their impact on the Soviet people Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long term detente with the capitalist world By means of an integrated military political and diplomatic narrative the author draws a sustained and compelling personal portrait of the Soviet leader The resulting picture is fascinating and contradictory and it will inevitably change the way we understand Stalin and his place in history Roberts depicts a despot who helped save the world for democracy a personal charmer who disciplined mercilessly a utopian ideologue who could be a practical realist and a warlord who undertook the role of architect of post war peace **Russia After Lenin** Vladimir Brovkin,2005-08-04 In *Russian Society and Politics 1921-1929* Vladimir Brovkin offers a comprehensive cultural political economic and social history of developments in Russia in the 1920 s The Soviet Colossus Michael G. Kort,2019-04-17 *The Soviet Colossus* revisits the turning points in Russia s modern history from the fall of the tsarist regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism the reforms and counter reforms of Khrushchev and Brezhnev to the reform program of Mikhail Gorbachev and the resultant collapse of the Soviet Union and from the effort to build a democratic and free market Russia under Boris Yeltsin to the political authoritarianism and the establishment of a state capitalist economy under Vladimir Putin This eighth edition has been revised and updated to cover the latest developments from the Putin administration These revisions include added emphasis on the increasing authoritarian nature of Russia s political system the serious challenges posed by the country s unsolved economic and social problems and the growing tensions between Russia on the one hand and the United States and the European Union on the other as a result of Moscow s aggression against Ukraine Kort combines this updated account with a broad exploration of Russia s political history examining how the Soviet past has been woven into the fabric of the modern Russian state a state which plays such a major assertive role in global affairs but which

simultaneously remains an allusive secretive entity With Russia s increasing influence on the global stage and the controversies that often accompany this The Soviet Colossus is an invaluable resource for students of history politics and international relations *Utopias and Utopians* Richard C.S. Trahair,2013-10-31 Utopian ventures are worth close attention to help us understand why some succeed and others fail for they offer hope for an improved life on earth Utopias and Utopians is a comprehensive guide to utopian communities and their founders Some works look at literary utopias or political utopias etc and others examine the utopias of only one country this work examines utopias from antiquity to the present and surveys utopian efforts around the world Of more than 600 alphabetically arranged entries roughly half are descriptions of utopian ventures the other half are biographies of those who were involved Entries are followed by a list of sources and a general bibliography concludes the volume Red Flag Wounded Ronald Suny,2020-08-25 Tracking the degeneration of the Russian Revolution Red Flag Wounded brings together essays covering the controversies and debates over the fraught history of the Soviet Union from the revolution to its disintegration Those monumental years were marked not only by violence mass killing and the brutal overturning of a peasant society but also by the modernisation and industrialisation of the largest country in the world the victory over fascism and the slow recovery of society after the nightmare of Stalinism Ronald Grigor Suny is one of the most prominent experts on the revolution the fate of the non Russian peoples of the Soviet empire and the twists and turns of Western historiography of the Soviet experience As a biographer of Stalin and a long time commentator on Russian and Soviet affairs he brings novel insights to a history that has been misunderstood and deliberately distorted in the public sphere For a fresh look at a story that affects our world today this is the place to begin *The Madness of Kings* Vivian Green,2016-10-21 From Caligula to Stalin and beyond this book offers a unique and pioneering look at the recurring phenomenon of the mad king from the early centuries of the Christian era to modern times
