Prize essay. The Adulteration of Liquors, with a description of the poisons used in their manufacture James B. Dunn, 1868 *Book Dealers' Weekly*, 1926 **Glad to the Brink of Fear** James Marcus, 2025-08-05

An engaging reassessment of the celebrated essayist and his relevance to contemporary readers. More than two centuries after his birth, Ralph Waldo Emerson remains one of the presiding spirits in American culture. Yet his reputation as the starry-eyed prophet of self-reliance has obscured a much more complicated figure who spent a lifetime wrestling with injustice, philosophy, art, desire, and suffering. James Marcus introduces readers to this Emerson, a writer of self-interrogating genius whose visionary flights are always grounded in Yankee shrewdness. This Emerson is a rebel. He is also a lover, a friend, a husband, and a father. Having declared his great topic to be the infinitude of the private man, he is nonetheless an intensely

social being who develops Transcendentalism in the company of Henry David Thoreau Margaret Fuller Bronson Alcott and Theodore Parker And although he resists political activism early on hoping instead for a revolution in consciousness the burning issue of slavery ultimately transforms him from cloistered metaphysician to fiery abolitionist Drawing on telling episodes from Emerson's life alongside landmark essays like Self Reliance Experience and Circles Glad to the Brink of Fear reveals how Emerson shares our preoccupations with fate and freedom race and inequality love and grief It shows too how his desire to see the world afresh rather than accepting the consensus view is a lesson that never grows old Trübner's American and Oriental Literary Record ,1865 A monthly register of the most important works published in North and South America in India China and the British colonies with occasional notes on German Dutch Danish French Italian Spanish Portuguese and Russian books *American Literary Gazette and Publishers' Circular* ,1866 **The SAGE Encyclopedia of Alcohol** Scott C. Martin,2014-12-16 Alcohol consumption goes to the very roots of nearly all human societies Different countries and regions have become associated with different sorts of alcohol for instance the beer culture of Germany the wine culture of France Japan and saki Russia and vodka the Caribbean and rum or the moonshine culture of Appalachia Wine is used in religious rituals and toasts are used to seal business deals or to celebrate marriages and state dinners However our relation with alcohol is one of love hate We also regulate it and tax it we pass laws about when and where it's appropriate we crack down severely on drunk driving and the United States and other countries tried the failed Noble Experiment of Prohibition While there are many encyclopedias on alcohol nearly all approach it as a substance of abuse taking a clinical medical perspective alcohol alcoholism and treatment The SAGE Encyclopedia of Alcohol examines the history of alcohol worldwide and goes beyond the historical lens to examine alcohol as a cultural and social phenomenon as well both for good and for ill from the earliest days of humankind **The Social Sciences** ,1914 **Alphabetical Finding List** Princeton University. Library,1921 Profits, Power, and Prohibition John J. Rumbarger,1989-01-01 This is the first comprehensive study of America's anti liquor anti drug movement from its origins in the late eighteenth century through the repeal of the Eighteenth Amendment in 1933 It examines the role that capitalism played in defining and shaping this reform movement Rumbarger challenges conventional explanations of the history of this movement and offers compelling counter arguments to explain the movement's historical development He successfully links the ethics of business enterprise and those of moral reform of society for the betterment of enterprise The author reveals how readily economic power is transformed first into social power and finally into political power in the context of a bourgeois democracy He shows that the motivation driving this reform movement was not religiosity but profit and that anti liquor capitalists viewed the human equation as determinant of America's prospect for creating wealth **Freedom's Ferment - Phases of American Social History to 1860** Alice Felt Tyler,2011-03-23 In its first half century the United States was visited by scores of curious European travellers who came to investigate the strange new world that was being created in the Western Hemisphere In their accounts of the

experience they praised or condemned the institutions and national characteristics spread out before them seized avidly upon all differences from the European norm and worried each peculiarity beyond recognition and beyond any just limit of its importance Americans themselves with the keen sensitiveness of the young and the boasting enthusiasm natural to vigorous creators of new ideas and institutions examined the work of their hands and believing it good reassured themselves and answered their calumniators in a flood of aggressive replies Every American interested in a reform movement a new cult or a Utopian scheme burst into print adding another to the rapidly growing list of polemic books and pamphlets From this variety of sources it is possible to recapture something of the inward spirit that gave rise to the more familiar and more tangible events of America's youth
