Temptation Of Saint Redon Biography Ideology And Style In The Noirs Of Odilon Redon:

The Temptation of Saint Redon Stephen F. Eisenman, Odilon Redon, 1992-12-15 Bristling with demons grotesques and bizarre apparitions the graphic work of Odilon Redon has often seemed to be the product of a mind unhinged In The Temptation of Saint Redon Stephen F Eisenman argues instead that these works are Redon s conscious and considered response to changing social realities an attempt to find refuge from the forces of modernization in an imaginative world of the macabre and the fantastic Eisenman s careful attention to the circumstances of Redon s life 1840 1916 allows him to bring into focus the interconnections between Redon s complex style and the culture and society of his time Born and raised on a sixteenth century estate near Bordeaux Redon was immersed as a child in traditional rural culture I spent my entire childhood in the M doc completely free among peasant children he recalled in his memoirs I heard them tell supernatural tales witches still exist there Indeed local tales and legends of witches ghosts one eyed monsters evil eyes and wood fairies figure prominently in Redon s graphic works which he called his noirs or blacks After formal training at Bordeaux and Paris in the 1850s and 1860s Redon began to chart his independent artistic course Eisenman shows how rejecting both naturalism and classicism Redon a prototypical Symbolist found in grotesque and epic genres the expression of organic communities and precapitalist societies He places Redon s desire for this imagined world of superstitious simplicity a desire manifest in his entire mature artistic practice in the context of contemporary avant garde movements Redon s great noirs of the 1870s and 1880s dreamlike configurations of seemingly irreconcilable elements from portraits still lifes and landscapes show an increasingly subtle control of connotation and a complex indebtedness to caricature allegory and puns Many of the noirs also visually interpret works by like minded authors including Baudelaire Flaubert Poe and Mallarm one of Redon s close friends Eisenman s analysis of the noirs underscores Redon s interest in creating an imaginative even fantastic art that could act directly on the human spirit In addition to deepening our understanding of Redon and his art The Temptation of Saint Redon exposes a link between place politics personal history and the artistic imagination

Kuenzli,2017-07-05 Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul S sier and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres The Nabis and Intimate Modernism is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism s development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority History of a Shiver Jed Rasula,2016-02-26 A sweeping cultural history that draws on music literature painting and film History of a Shiver uncovers how art pioneered in the nineteenth century provided the foundation for

modernist aesthetics High Art David Carrier, 2010-11-01 The great poet Charles Baudelaire 1821-1867 was also an extremely influential art critic. High Art relates the philosophical issues posed by Baudelaire's art writing to the theory and practice of modernist and postmodernist painting. Baudelaire wrote in an age of transition. David Carrier argues an era divided by the Revolution of 1848, the historical break that played for him a role now taken within modernism by the political revolts of 1968. Moving from the grand tradition of Delacroix to the images of modern life made by Constantin Guys, this movement from high to low, from the unified world of correspondences to the fragmented images of contemporary city life, motivates Baudelaire's equivalent to the post-1968 turn away from formalist art criticism. Viewed from the perspective of the 1990s, Carrier argues the issues raised by Baudelaire's criticism and creative writing provide a way of understanding the situation of art writing in our own time.

Infelicities Peter Mason, 1998 In *Infelicities* Peter Mason explores the texts, paintings, drawings, photographs, and museum displays in which the exotic has been represented from the early modern period to the present. He describes the unique iconography that Europeans developed to convey the exotic and the means they employed to display it once artifacts were brought to Europe. In both instances, the exotic object is taken out of its original context and given a meaning and significance it never had. This new meaning and significance, Mason argues, are derived from the imposition of European cultural values and the need to recontextualize the object in a European setting.

Potential Images Dario Gamboni, 2002 In *Potential Images*, Dario Gamboni explores ambiguity in modern art, considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect. Ambiguity became increasingly important in late 19th and early 20th century aesthetics, as is evidenced in works by such artists as Redon, Cézanne, Gauguin, Ensor, and the Nabis. Similarly, the Cubists subverted traditional representational conventions, requiring their viewers to decipher images to extract their full meanings. The same device was taken up in the various experiments leading to abstraction. For example, it was Kandinsky's intention that his work could be interpreted in both figurative and non-figurative ways, and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture. These invitations to viewers to participate in the process of artistic communication had social and political implications, as they accorded artist and beholder symmetrical, almost interchangeable roles.

Art Nouveau Charlotte Ashby, 2021-10-21 Art Nouveau presents a new overview of the international Art Nouveau movement. Art Nouveau represented the search for a new style for a new age, a sense that the conditions of modernity called for fundamentally new means of expression. Art Nouveau emerged in a world transformed by industrialisation, urbanisation, and increasingly rapid means of transnational exchange, bringing about new ways of living, working, and creating. This book is structured around key themes for understanding the contexts behind Art Nouveau, including new materials and technologies, colonialism and imperialism, the rise of the modern woman, the rise of the professional designer, and the role of the patron/collector. It also explores the new ideas that inspired Art Nouveau: nature and the natural sciences, world arts, and world religions, psychology,

and new visions for the modern self Ashby explores the movement through 41 case studies of artists and designers buildings interiors paintings graphic arts glass ceramics and jewellery drawn from a wide range of countries *Print Quarterly* ,1993
