Ten Gifts:

The Ten Gifts Robin Silverman, 2011-04-01 When one of the century's greatest floods devastated her town Robin Silverman went looking for the personal peace she knew she and tens of thousands of others would need to restore their shattered lives. In her search she discovered the Ten Gifts: powerful inner resources that have been within us since birth: resources that can transform crisis, create opportunity and deliver lasting fulfillment. The gifts have familiar names: faith, love, dreams, courage, unity, joy, trust, character, thanks, and intention. Using stories of real people, Silverman beautifully illustrates new and exciting ways your gifts can be defined and used to provide the security you want when you need it the most. In addition, she offers practical exercises so you can put the gifts to work for yourself. For anyone wanting more satisfaction from life, **The Ten Gifts** lights the path to personal peace.

Ten Gifts of the Demiurge Emilie Kutash, 2013-10-16 Proclus' commentary on Plato's *Timaeus* is perhaps the most important surviving Neoplatonic commentary. In it, Proclus contemplates nature's mysterious origins and at the same time employs the deductive rigour required to address perennial philosophical questions. Nature for him is both divine and mathematically transparent. He renders theories of Time, Eternity, Providence, Evil, Soul, and Intellect and constructs an elaborate ontology that includes mathematics and astronomy. He gives ample play to pagan theology too, frequently lapsing into the arcane language of the Chaldaean Oracles. **Ten Gifts of the Demiurge** is an essential companion to this rich but complex and densely wrought text, providing an analysis of its arguments and showing that it, like the cosmos, Proclus reveres, is a living coherent whole. The book provides aids to understanding Proclus' work within the complex background of Neoplatonic philosophy, familiarising the reader with the political context of the Athenian school, analysing Proclus' key terminology and giving background to the philosophical arguments and ancient sciences upon which Proclus draws. Above all, it helps the reader appreciate the varicoloured light that Proclus sheds on the secrets of nature.

Getting Sent Pete Sommer, 2009-09-20 Most of us would rather have a root canal than ask for money. Raising support is one of the most difficult challenges facing Christians in ministry. Fears of rejection, concerns about biblical validity, feelings of not being deserving, anxiety about limited resources can all block us from obtaining the means to fulfill our calling. This book both affirms that God uses the Christian community to send us into ministry and demystifies the process. This down-to-earth handbook offers a clear biblical perspective, gives step-by-step instructions on how to assemble the tools unique to each person's support-raising task, helps you know what range of gift to ask of a potential donor, outlines the how-tos of holding a home promotional event, tells the four predictors of church support, is aware of the diverse ethnic contexts of today's new mission candidates, includes a chapter by a woman for women on their unique challenges in support raising, shows how to build a base in a strong church when you don't have one, explains exactly why people do and don't give. The relational strategy in this book has proven valuable for those who serve Christ on campus, in the city or in other special ministries at home or abroad. It is not necessarily the quickest approach to raising money, but it is the most lasting and fulfilling for those

who give and receive Grace Gifts Dan Knight,2011-10-31 Too many of us are burdened with the question What am I supposed to be doing Weve tried doing what Jesus did WWJD but weve found walking on water and feeding the multitudes a little beyond our capabilities So weve settled for watching other Christians and imitating them Or worse we have taken the first job anyone offered us and stayed at it in frustration for years and years Theres a better answer You are supposed to be doing what God has equipped you to do Knowing the gifts you have received lets you know what God expects you to do

Commentary on Plato's Timaeus, Part 2, Proclus on the World Soul Proclus,2009-12-03 In the present volume Proclus describes the creation of the soul that animates the entire universe This is not a literal creation for Proclus argues that Plato means only to convey the eternal dependence of the World Soul upon higher causes In his exegesis of Plato s text Proclus addresses a range of issues in Pythagorean harmonic theory as well as questions about the way in which the World Soul knows both forms and the visible reality that comprises its body This part of Proclus Commentary is particularly responsive to the interpretive tradition that precedes it As a result this volume is especially significant for the study of the Platonic tradition from the earliest commentators onwards **Leading the Campaign** Michael J. lead a campaign is essential to success for today s college or university president And campaign experience at some level is generally now a prerequisite credential for presidential candidates as well as deans and other academic leaders on both public and private campuses This book discusses fundamental campaign principles but is not intended as a how to guide Rather its emphasis is on the strategic decisions that a campaign requires and on campaign leadership It will be of interest to trustees advancement professionals and others concerned with the future of colleges and universities But consistent with its sponsorship by the American Council on Education it emphasizes the campaign leadership of presidents **Cast Your**
