Best, 1987-05      *Tennis and the Masai* Nicholas Best, 1986      **Trapped in History** Nicholas Rankin, 2023-11-14 Trapped in History tells how the British colonised Kenya and how African nationalism arose under Jomo Kenyatta It describes the terrifying first attacks by the guerrilla freedom fighters known as Mau Mau Though defeated the Mau Mau hastened the end of British rule in Kenya Trapped in History explores the effect the uprising on the author who grew up as a child in the Kenya colony The book is both a history as well as a memoir of the end of Empire      **Moments of Doubt and Other Mountaineering Writings** David Roberts, 1986 Moments of Doubt is a collection of 20 essays and articles on mountaineering and adventure by David Roberts selected from the published works of two decades It showcases one of the most highly regarded writers in the field      **Through Masai Land** Joseph Thomson, 1885      *The Worlds of a Maasai Warrior* Tepilit Ole Saitoti, 1986 Recounts the author's traditional childhood adolescence and coming into manhood in Maasailand and of his education in Europe and America      **British Book News** British Council, 1986      **The Why Axis** Uri Gneezy, John List, 2013-10-08 Can economics be passionate Can it center on people and what really matters to them day in and day out And help us understand their hidden motives for why they do what they do in everyday life Uri Gneezy and John List are revolutionaries Their ideas and methods for revealing what really works in addressing big social business and economic problems gives us new understanding of the motives underlying human behavior We can then structure incentives that can get people to move mountains change their behavior or at least get a better deal But finding the right incentive can be like looking for a needle in a haystack Gneezy and List's pioneering approach is to embed themselves in the factories schools communities and offices where people work live and play Then through large scale field experiments conducted in the wild Gneezy and List observe people in their natural environments without them being aware that they are observed Their randomized experiments have revealed ways to close the gap between rich and poor students to stop the violence plaguing inner city schools to decipher whether women are really less competitive than men to correctly price products and services and to discover the real reasons why people discriminate To get the answers Gneezy and List boarded planes helicopters trains and automobiles to embark on journeys from the foothills of Kilimanjaro to California wineries from sultry northern India to the chilly streets of Chicago from the playgrounds of schools in Israel to the boardrooms of some of the world's largest corporations In The Why Axis they take us along for the ride and through engaging and colorful stories present lessons with big payoffs Their revelatory startling and urgent discoveries about how incentives really work are both revolutionary and immensely practical This research will change both the way we think about and take action on big and little problems Instead of relying on assumptions we can find out through evidence what really works Anyone working in business politics education or philanthropy can use the approach Gneezy and List describe in The Why Axis to reach a deeper nuanced understanding of human behavior and a better understanding of what motivates people and why      *Sports*
