Teora De La Novela Coleccin Temas No 6:

Figural Language in the Novel Ramon Saldivar, 2014-07-14 Novels affirm the power of fiction to portray the horizons of knowledge and to dramatize the ways that the truths of human existence are created and preserved Professor Saldivar shows that deconstructive readings of novels remind us that we do not apprehend the world directly but through interpretive codes Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Monographic Series** Library of Congress, 1982
