Sub A Study In Witchcraft:

Jesus and Magic Richard A Horsley, 2015-04-30 It has become standard in modern interpretation to say that Jesus performed miracles and even mainline scholarly interpreters classify Jesus's healings and exorcisms as miracles. Some highly regarded scholars have argued more provocatively that the healings and exorcisms were magic and that Jesus was a magician. As Richard Horsley points out, if we make a critical comparison between modern interpretation of Jesus's healing and exorcism on the one hand and the Gospel stories and other ancient texts on the other hand, it becomes clear that the miracle and magic are modern concepts, products of Enlightenment thinking. Jesus and Magic asserts that Gospel stories do not have the concepts of miracle and magic. What scholars constructed as magic turns out to have been ritual practices such as songs, incantations, medicines, potions, and appeals to higher powers for protection. Horsley offers a critical reading of the healing and exorcism episodes in the Gospel stories. This reading reveals a dynamic relationship between Jesus, the healer, the trust of those coming for healing, and their support networks in local communities. Horsley's reading of the Gospel stories gives little or no indication of divine intervention. Rather, the healing and exorcism stories portray healings and exorcisms.

The Oxford Handbook of Witchcraft in Early Modern Europe and Colonial America Brian P. Levack, 2013-03-28 The essays in this Handbook, written by leading scholars working in the rapidly developing field of witchcraft studies, explore the historical literature regarding witch beliefs and witch trials in Europe and colonial America between the early fifteenth and early eighteenth centuries. During these years, witches were thought to be evil people who used magical power to inflict physical

harm or misfortune on their neighbours Witches were also believed to have made pacts with the devil and sometimes to have worshipped him at nocturnal assemblies known as sabbaths These beliefs provided the basis for defining witchcraft as a secular and ecclesiastical crime and prosecuting tens of thousands of women and men for this offence The trials resulted in as many as fifty thousand executions These essays study the rise and fall of witchcraft prosecutions in the various kingdoms and territories of Europe and in English Spanish and Portuguese colonies in the Americas They also relate these prosecutions to the Catholic and Protestant reformations the introduction of new forms of criminal procedure medical and scientific thought the process of state building profound social and economic change early modern patterns of gender relations and the wave of demonic possessions that occurred in Europe at the same time The essays survey the current state of knowledge in the field explore the academic controversies that have arisen regarding witch beliefs and witch trials propose new ways of studying the subject and identify areas for future research

Rethinking the Anthropology of Magic and Witchcraft

Phillips Stevens, Jr.,2023-12-12 This book introduces students to the anthropology of magic and witchcraft terms widely used but with no widely accepted definitions It takes a new approach to this area within the anthropology of religion demonstrating that the bases for these beliefs and alleged practices are inherent in human cognition and psychology even instinctual and likely rooted in our evolutionary biology It shows how magic and magical thinking are regular elements in people s daily lives and that understanding the components of the witchcraft complex offers surprisingly important insights into patterns of thinking and social behavior The book reviews the many meanings of magic and witchcraft and introduces the best anthropological meanings of the terms The components of these beliefs are timeless and universal this fact and recent advances in the brain sciences suggest that the principles of magic are derived from basic processes of human thinking and the attributes of the witch derive from neurobiologically based fears and fantasies The propensity for such beliefs probably had adaptive significance in the evolutionary development of the human species they are inherently human This book is intended to focus anew on the core concepts of magic witchcraft and the supernatural while also serving as an introduction to the anthropology of religion for undergraduate and graduate level courses

twenty first century North America its objects of analysis range from Persian curse tablets to US neo paganism For comparative purposes the volume includes chapters on developments in the Jewish and Muslim worlds evaluated not simply for what they contributed at various points to European notions of magic but also as models of alternative development in ancient Mediterranean legacy Similarly the volume highlights the transformative and challenging encounters of Europeans with non Europeans regarding the practice of magic in both early modern colonization and more recent decolonization

The Palgrave Handbook of Anthropological Ritual Studies Pamela J. Stewart, Andrew J. Strathern, 2021-08-24 Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future *Studies and texts in folklore, magic, medieval romance, Hebrew Apocrypha and Samaritan archæology* Moses Gaster, 1928

Magic as a Political Crime in Medieval and Early Modern England Francis Young, 2017-10-30 Treason and magic were first linked together during the reign of Edward II Theories of occult conspiracy then regularly led to major political scandals such as the trial of Eleanor Cobham Duchess of Gloucester in 1441 While accusations of magical treason against high ranking figures were indeed a staple of late medieval English power politics they acquired new significance at the Reformation when the superstition embodied by magic came to be associated with proscribed Catholic belief Francis Young here offers the first concerted historical analysis of allegations of the use of magic either to harm or kill the monarch or else manipulate the course of political events in England between the fourteenth century and the dawn of the Enlightenment His book addresses a subject usually either passed over or elided with witchcraft a quite different historical phenomenon He argues that while charges of treasonable magic certainly were used to destroy reputations or to ensure the convictions of undesirables magic

was also perceived as a genuine threat by English governments into the Civil War era and beyond

Guide to the Study of Ancient Magic David Frankfurter, 2019-03-19 In the midst of academic debates about the utility of the term magic and the cultural meaning of ancient words like *mageia* or *khesheph* this *Guide to the Study of Ancient Magic* seeks to advance the discussion by separating out three topics essential to the very idea of magic The three major sections of this volume address 1 indigenous terminologies for ambiguous or illicit ritual in antiquity 2 the ancient texts manuals and artifacts commonly designated magical or used to represent ancient magic and 3 a series of contexts from the written word to materiality itself to which the term magic might usefully pertain The individual essays in this volume cover most of Mediterranean and Near Eastern antiquity with essays by both established and emergent scholars of ancient religions In a burgeoning field of magic studies trying both to preserve and to justify critically the category itself this volume brings new clarity and provocative insights This will be an indispensable resource to all interested in magic in the Bible and the Ancient Near East ancient Greece and Rome Early Christianity and Judaism Egypt through the Christian period and also comparative and critical theory Contributors are Magali Bailliot Gideon Bohak Vronique Dasen Albert de Jong Jacco Dieleman Esther Eidinow David Frankfurter Fritz Graf Yuval Harari Naomi Janowitz Sarah Iles Johnston Roy D Kotansky Arpad M Nagy Daniel Schwemer Joseph E Sanzo Jacques van der Vliet Andrew Wilburn
