Subversion Of Politics European Autonomous Movements And The Decolonization Of Everyday Life:

The Subversion of Politics George N. Katsiaficas, 1997 George Katsiaficas's account covers the period 1968-1996 and pays special attention to the role of autonomous feminist movements, the effects of squatters and feminists on the disarmament movement and on efforts to shut down nuclear power and the antifascist social movements developed in response to the neo-Nazi upsurge. In addition to providing a rare depiction of these often overlooked movements, Katsiaficas develops a specific notion of autonomy from the statements and aspirations of these movements. Drawing from the practical actions of social movements, his analysis is extended into a universal standpoint of the species, a perspective he develops by uncovering the partiality of Antonio Negri's workerism, Seyla Benhabib's feminism and notions of uniqueness of the German nation.

The Urban Politics of Squatters' Movements Miguel A. Martínez López, 2017-11-27 This volume sheds light on the development of squatting practices and movements in nine European cities: Madrid, Barcelona, Seville, Rome, Paris, Berlin, Copenhagen, Rotterdam, and Brighton, by examining the numbers, variations, and significant contexts in their life course. It reveals how and why squatting practices have shifted and to what extent they engender urban movements. The book measures the volume and changes in squatting over various decades, mostly by focusing on Squatted Social Centres but also including squatted housing. In addition, it systematically compares the cycles, socio-spatial structures, and the political implications of squatting in selected cities. This collection highlights how squatters' movements have persisted over more than four decades through different trajectories and circumstances, especially in relation to broader protest cycles, and reveals how political opportunities and constraints influence the conflicts around the legalisation of squats.
