The Death Penalty Issues And Answers:

The Death Penalty David Lester, 1998 Is the death penalty a deterrent Is it applied disproportionately to certain ethnic groups How harsh is life on death row In this expanded new edition the author examines these and other controversial issues draws conclusions from the current research and discusses their implication for social policy Topics such as capital punishment policies around the world executions in the United States public opinion on the death penalty juries and the death penalty and economic analyses of the deterrent factor all receive comprehensive coverage Appendices round out this newly revised and updated text with studies on public attitudes toward rape and capital punishment and the deterrent effect of executions on the homicide rate in the United States Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes
