The Design And Evaluation Of Public Library Buildings:

The Design and Evaluation of Public Library Buildings Nolan Lushington, James Michael Kusack, 1991 Supercedes Lushington's now classic *Libraries designed for users 1980* by looking at planning a library in the context of new technology new expectations of libraries and new ways of evaluating the finished product Describes initial design emphasizing flexibility and the library's many roles and also explains how to modify libraries in use to bring them into line with the design goals Written for library administrators rather than for architects *Planning Public Library Buildings* Michael Dewe, 2016-04-22 Planning a new or refurbished public library means considering not only facilities for collections services staff and users but examining also the local context reviewing the library image and developing relationships with other community facilities and agencies This book examines the entire gamut of challenges confronting the planning and development of contemporary public libraries their mission their roles and key issues such as lifelong learning social inclusion community and cultural needs regeneration and funding The helpful presentation and readable style guides the librarian through the preliminary information gathering and decision making process that ensures a successful library building for all concerned Using practical case studies plans and photographs the author tackles the critical issues of siting size plans and design concepts and provides a helpful guide to weighing up the alternatives of refurbished converted and new buildings Separate chapters focus on the planning briefing and construction process security safety and sustainability key characteristics of successful buildings identity decor and signage and interior layout and facilities The text draws together a vast resource of real library examples from all over the world which provide best practice models and lessons to learn For funding authorities librarians and architects of public libraries this is a highly informative book that will help to ensure wise decision making and prevent costly mistakes *Administration of the Public Library* Alice Gertzog, Edwin P. Beckerman, 2003 Now available in paperback The Administrative of the Public Library is a comprehensive approach to contemporary public library concerns It combines theory and practical advice as it addresses in a simple logical clear and jargon free fashion public library policies procedures resources and human relations Based on the premise that library administration entails not only familiarity with management principles but intimate knowledge of the products and processes for which it is responsible the book covers input functions collection development technology technical services public services outreach information circulation youth readers as well as important traditional management topics staff directors finance buildings and public relations All of these are developed within a system political historical and social context The text uses as its model Guy R Lyle's *Administration of the College Library* and is designed for students and practicing librarians alike *Planning for a New Generation of Public Library Buildings* Gerard B. McCabe, 2000-01-30 The public library director needs information that helps in understanding what is involved in planning for a public library building project This applies whether the subject is a free standing independent building a branch library a joint use facility with a museum a senior academic library a community or junior college library or

a school library Reading this book will not turn a reader into a qualified specialist on library buildings but it will help librarians and others learn what should be known about a project so that they may function effectively as part of the planning team The concept of modern libraries is moving toward interactive connections with information sources far beyond the immediate community For the contemporary public library this means connection to a network with several terminals constantly online to the Internet New library buildings must be constructed with these and other needs in mind The public library director needs information that helps in understanding what is involved in planning for a public library building project This applies whether the subject is a free standing independent building a branch library a joint use facility with a museum a senior academic library a community or junior college library or a school library This book will help librarians and others learn what should be known about a project so that they may function effectively as part of the planning team

Library Building Projects Susan B. Hagloch, James L. Thomas, 1994-04-15 Based on the author's experiences this handy guide offers the kind of information not found in standard texts You will learn how to get maximum coverage from your local newspaper how to sustain staff morale during months of dust noise and confusion and how to understand constructionese Pithy practical and full of useful ideas this is one book every librarian considering or involved in a construction project should read Floor plans and elevations included **Cumulative Book Index**, 1925 A world list of books in the English language

Library Construction from a Staff Perspective Staff of the Williamsburg Regional Library, 2001-02-15 Written from the perspective of staff members who worked in the Williamsburg Regional Library system during four years of multiple construction projects this fresh and straight on text covers both new construction and renovation and additions The results at Williamsburg are exemplary one patron commented The building is a wedding of books and light which gives wings to the spirit As the Williamsburg staff relates their experiences the reader is guided through the construction The book a collaborative effort of the library's staff shares directly with the reader the knowledge gained in the process the reality of costs in choosing priorities working with architects contractors and project managers patron considerations and technology upgrades Also included are ideas for celebratory events fundraising and interaction with boards of directors and local government in building a team Appendices conclude the work with a summary timeline technology specifications and useful charts *Evaluating the School Library* Nancy Everhart Ph.D., 2020-10-14 This guide for the evaluation of school libraries both in practice and in research covers analysis techniques and research practices for conducting evaluations of curriculum collections facilities and library personnel performance This new edition of an important tool for school librarians and administrators describes how and why to conduct evaluations of school libraries and explains the evaluation of curriculum collections facilities student programs and services and library personnel The results can be used for strategic planning curriculum development and conducting action research New topics to this edition include explorations of community faculty students and school library research discussing how to bring all stakeholders to the table when evaluating the school library

program personnel and services and the collection and facilities Other new topics include information on high stakes testing multiculturalism special needs students advocacy school librarians self evaluation dispositions for learning and evidence based practice This title will be of value to new school librarians in assessing how their program compares to others as well as to school library professors who will find this book useful in management and administration courses **IFLA Library Building Guidelines: Developments & Reflections** Karen Latimer,Hellen Niegaard,2008-11-03 The information society and the information age are changing library services as well as library premises This raises questions about what needs to be considered when planning and designing new library buildings in order to achieve attractive efficient and future oriented new library spaces This new publication provides information and guidelines for the building planning process whether you are planning a new public or academic library building It reflects on fundamental issues on new development trends and on the planning process The library building process is seen from both the library manager s perspective as well as that of the architect and designer Issues covered include what to consider when investigating the need for space library design from a marketing viewpoint green management and sustainability relating to library buildings and a layman s guide to reading plans This publication and the IFLA guidelines provided are not seen as a traditional set of recommendations to be rigidly adhered to since this would be unrealistic in a fast changing and global context Rather library managers and architects should read them in order to inform their thinking on key issues and establish a planning programme They must then relate them to their own countries and circumstances by making the relevant local adjustments **Post-occupancy evaluation of library buildings** Karen Latimer,Dorothea Sommer,2015-09-25 Architectural realisation of a building and its opening to the public with a range of services are central components of the building and design process of libraries Post Occupancy Evaluation POE is the final step in this process It provides a opportunity to assess whether the construction and design of the building has indeed met the library s and users requirements and how effectively the building functions
