*Sir William Chambers, Knight of the Polar Star* John Harris, 1970      **Sir William Chambers, Knight of the Polar Star**  
John Harris, 1970      **Sir William Chambers** John Harris, 1970      **Sir William Chambers, Knight of the Polar Star, by**  
**John Harris with contributions by J. Mordaunt Crook and Eileen Harris** John Harris,      **Sinographies** Eric  
Hayot, Haun Saussy, Steven G. Yao, *Sinographies* examines topics like colonialism literary modernism translation anime and  
Tibet As a whole this volume imagines sinography as a new methodological approach to the study of China one that clears  
ground for new kinds of comparative work      *The Chinese Taste in Eighteenth-Century England* David Porter, 2010-11-11  
Eighteenth century consumers in Britain living in an increasingly globalized world were infatuated with exotic Chinese and  
Chinese styled goods art and decorative objects However they were also often troubled by the alien aesthetic sensibility  
these goods embodied This ambivalence figures centrally in the period's experience of China and of contact with foreign  
countries and cultures more generally David Porter analyzes the processes by which Chinese aesthetic ideas were  
assimilated within English culture Through case studies of individual figures including William Hogarth and Horace Walpole  
and broader reflections on cross cultural interaction Porter's readings develop new interpretations of eighteenth century  
ideas of luxury consumption gender taste and aesthetic nationalism Illustrated with many examples of Chinese and Chinese  
inspired objects and art this is a major contribution to eighteenth century cultural history and to the history of contact and  
exchange between China and the West      *The critical review, or annals of literature*, 1773      **Then and Now** Joan  
Coutu, 2015-07-01 In the mid eighteenth century English gentlemen filled their houses with copies and casts of classical  
statuary while the following generation preferred authentic antique originals By charting this changing preference within a  
broader study of material culture Joan Coutu examines the evolving articulation of the English gentleman Then and Now  
consists of four case studies of mid century collections Three were amassed by young aristocrats the Marquis of Rockingham  
the Duke of Richmond and the Earl of Huntingdon who consistent with their social standing were touted as natural political  
leaders Their collections evoke the concept of gentlemanly virtue through example offering archetypes to encourage men  
toward acts of public virtue As the aristocrats matured in the politically fractious realm of the 1760s such virtue could  
become politicized A fourth study focuses on Thomas Hollis who used his collection to proselytize his own unique political  
ideology Framed by studies of collecting practices earlier and later in the century Coutu also explores the fluid temporal  
relationship with the classical past as the century progressed firmly situating the discussion within the contemporaneous  
emerging field of aesthetics Broadening the focus beyond published texts to include aesthetic conversations among the  
artists and the aristocracy in Italy and England Then and Now shows how an aesthetic canon emerged embodied in the  
Apollo Belvedere the Venus de Medici and the like which shaped the Grand Manner of art      **The Philosophy of Medicine:**
