 Dawe, 2020-05-18 The guitar is one of the most evocative instruments in the world It features in music as diverse as heavy
 metal blues indie and flamenco as well as Indian classical music village music making in Papua New Guinea and carnival in
 Brazil This cross cultural popularity makes it a unique starting point for understanding social interaction and cultural identity
 Guitar music can be sexy soothing melancholy or manic but it nearly always brings people together and creates a common
 ground even if this common ground is often the site of intense social cultural economic and political negotiation and contest
 This book explores how people use guitars and guitar music in various nations across the world as a musical and symbolic
 basis for creating identities In a world where place and space are challenged by the pace of globalization the guitar provides
 images sounds and styles that help define new cultural territories Guitars play a crucial part in shaping the commercial
 music industry educational music programmes and local community atmosphere Live or recorded guitar music and
 performance collecting and manufacture sustains a network of varied social exchanges that constitute a distinct cultural
 milieu Representing the first sustained analysis of what the guitar means to artists and audiences world wide this book
 demonstrates that this seemingly simple material artefact resonates with meaning as well as music The Garland

 the first social history of music in undivided Punjab 1800 1947 beginning at the Lahore court of Maharaja Ranjit Singh and
 concluding at the Patiala royal darbar It unearths new evidence for the centrality of female performers and classical music in
 a region primarily viewed as a folk music centre featuring a range of musicians and dancers from mirasis bards and
 kalawants elite musicians to kanjris subaltern female performers and tawaifs courtesans A central theme is the rise of new
 musical publics shaped by the anglicized Punjabi middle classes and British colonialists response to Punjab s performing
 communities The book reveals a diverse connoisseurship for music with insights from history ethnomusicology and
 geography on an activity that still unites a region now divided between India and Pakistan The Other Classical Musics

Michael Church, 2015 *The Other Classical Musics* offers challenging new perspectives on classical music by presenting the history of fifteen parallel traditions. Winner of the Royal Philharmonic Society Music Award for Creative Communication 2015. There is a treasure trove of underappreciated music out there; this book will convince many to explore it. *The Economist*. What is classical music? This book answers the question in a manner never before attempted by presenting the history of fifteen parallel traditions of which Western classical music is just one. Each music is analysed in terms of its modes, scales and theory, its instruments, forms and aesthetic goals, its historical development, golden age and condition today, and the conventions governing its performance. The writers are leading ethnomusicologists and their approach is based on the belief that music is best understood in the context of the culture which gave rise to it. By including Mande and Uzbek, Tajik music plus North American jazz in addition to the better known styles of the Middle East, the Indian sub-continent, the Far East and South East Asia, this book offers challenging new perspectives on the word 'classical'. It shows the extent to which most classical traditions are underpinned by improvisation and reveals the cognate origins of seemingly unrelated musics; it reflects the multifarious ways in which colonialism, migration and new technology have affected musical development and continue to do today. With specialist language kept to a minimum, it is designed to help both students and general readers to appreciate musical traditions which may be unfamiliar to them and to encounter the reality which lies behind that lazy adjective 'exotic'.

MICHAEL CHURCH has spent much of his career in newspapers as a literary and arts editor. Since 2010 he has been the music and opera critic of *The Independent*. From 1992 to 2005 he reported on traditional musics all over the world for the BBC World Service. In 2004 Topic Records released a CD of his Kazakh field recordings and in 2007 two further CDs of his recordings in Georgia and Chechnya.

Music, Modernity, and Publicness in India Tejaswi Niranjana, 2020-02-14

With the onset of modernity in twentieth-century India, new social arrangements gave rise to new forms of music-making. The musicians were no longer performing exclusively in the princely courts or in the private homes of the wealthy. Not only did the act of listening to and appreciating music change, it became an important feature of public life, thus influencing how modernity shaped itself. This volume attempts to study the connections between music and the creation of new ideas of publicness during the early twentieth century. How was music labelled as folk or classical? How did music come to play such a catalytic role in forming identities of nationhood, politics or ethnicity? And how did twentieth-century technologies of sound reproduction and commercial marketing contribute to changing notions of cultural distinction? Exploring these interdisciplinary questions across multiple languages, regions and musical genres, the essays provide fresh perspectives on the history of musicians and migration in colonial India, the formation of modern spaces of performance and the articulation of national as well as nationalist traditions.
