Success with School Gardens Linda A. Guy, Cathy Cromell, Lucy K. Bradley, 1996

Creating Outdoor Classrooms

Lauri Macmillan Johnson, Kim Duffek, 2010-01-01 Schoolyards have come a long way from the barren playgrounds that many people remember. Today's school campuses often feature gardens in which students can learn about native plants and wildlife, grow vegetables and fruit, explore cultural traditions, practice reading and math skills, and use their imaginations to create fun play spaces. And for a growing number of urban students, these schoolyard gardens offer the best if not the only opportunity to experience the natural world firsthand and enjoy its many benefits. This book is a practical hands-on guide for creating a variety of learning environments in the arid Southwest. Filled with clear, easy-to-use information and illustrated with photographs, drawings, and plans, the book covers everything necessary to create schoolyard gardens. An introduction to schoolyards as outdoor classrooms and several types of habitats, including art gardens, cultural history gardens, ecological gardens, literacy gardens, and vegetable gardens. Design theory, including a history of garden styles and design principles and design elements. Beginning the design process, including identifying participants and writing a design program that sets out goals and requirements. Conducting site research and synthesizing design elements to arrive at a final design. Design essentials, including project funding and design features, maintenance, accessibility, safety, and project evaluation and revision. Wildlife ecology, including elements needed for survival, such as food and shelter. Creating gardens for pollinators and other wildlife, including hummingbirds, butterflies, bees, moths, bats, and flies, as well as pest control. Lists of native plants for various kinds of habitats and nurseries that sell native plants, as well as books, web sites, and other resources for learning more about native plants and wildlife. This guide will be essential for landscape architects, school personnel, parents, and students. Indeed, its principles can be used in designing schoolyard habitats across the country, while its information on gardening with native plants and wildlife will be useful to homeowners across the Southwest. [Setting Up and Running a School Garden](#), 2005

Adequate nutrition and education are key to the development of children and their future livelihoods. The reality facing millions of children, however, is that these essentials are far from being met. Schools can make an important contribution to countries' efforts to overcome hunger and malnutrition, and school gardens can help to improve the nutrition and education of children and their families in both rural and urban areas. FAO promotes school gardens primarily as a platform for learning, as well as a vehicle for better nutrition. Schools are encouraged to create learning gardens that are moderate in size so that they can be easily managed by students, teachers, and parents, but that also allow for the production of a variety of nutritious vegetable and fruit, and where possible, some small-scale livestock, such as chicken or rabbits. In preparing this manual, intended to assist school teachers, parents, and the wider community, FAO has drawn upon experiences and best practices derived from school garden initiatives all over the world. Production methods are kept simple so that they can be easily replicated by students and parents at their homes. Also published in French and in Spanish. **Sunset Western Gardening**

Annual, 1998 Suzanne Normand Eyre,1998-03 *Fruit and Vegetable Science Report* ,1998 **Sowing the Seeds of Success** Marcia Eames-Sheavly,1999 **The Sonoran Quarterly** ,1999 *The Northwest Gardeners' Resource Directory* Stephanie Feeney,1997 Stephanie Feeney has combed the Pacific Northwest and British Columbia to find the fabulous resources that make the area a horticultural paradise This guide makes it a snap to find over 350 nurseries of all sizes over 200 mail order sources for gardening items over 300 e mail and Internet Web sites of interest to gardeners over 200 clubs and organizations publications and other sources *HortIdeas* ,1995 **Crear y manejar un huerto escolar.
