The Dead Volcano The Background And Effects Of Nuclear War Complacency:

The Dead Volcano Stephen J. Cimbala, 2002-06-30 Argues that nuclear complacency can cause a nuclear war in the 21st century

A Global History of the Nuclear Arms Race Richard Dean Burns, Joseph M. Siracusa, 2013-04-23 Written by two preeminent authors in the field this book provides an accessible global narrative of the nuclear arms race since 1945 that focuses on the roles of key scientists military chiefs and political leaders The first book of its kind to provide a global perspective of the arms race this two volume work connects episodes worldwide involving nuclear weapons in a comprehensive narrative fashion Beginning with a discussion of the scientific research of the 1930s and 1940s and the Hiroshima decision the authors focus on five basic themes political dimensions technological developments military and diplomatic strategies and impact The history of the international nuclear arms race is examined within the context of four historical eras America's nuclear monopoly America's nuclear superiority superpower parity and the post Cold War era Information about the historical development of the independent deterrence of Britain France and China as well as the piecemeal deterrence of newcomers Israel India Pakistan and North Korea is also included as is coverage of the efforts aimed at the international control of nuclear weapons and the diplomatic architecture that underpins the global nuclear non proliferation regime

Arms Control for the Third Nuclear Age David A. Cooper, 2021 International relations scholar David A Cooper offers a reappraisal of classic arms control theory that advocates for reprioritizing deterrence over disarmament in a new era of nuclear multipolarity

Nuclear Command and Control Norms Salma Shaheen, 2018-09-28 This book offers a new analytical framework for studying nuclear command and control C2 based on a comparative study of four nuclear weapons states NWS The subject of nuclear operations management has long been shrouded in secrecy and whilst the importance of nuclear C2 cannot be disputed there are few academic studies into how and why states develop these systems This volume includes a comparative study of the development of nuclear C2 by four different NWS Britain China India and Pakistan and demonstrates that despite several differences there is a central set of factors that remain constant The analytical framework used in this study identifies key factors that can potentially shape the evolution and stability of nuclear C2 These factors include geostrategic threat environment international norms leadership and control of nuclear operations civil military control The book also analyses the interaction among different stakeholders within the nuclear C2 enterprise It recognises that politicians the military and scientists all have key but different roles to play and the way these stakeholders have learned to co exist with each other is explored This volume offers a set of dynamics that could form a global norm for nuclear C2 serving as a standard for new entrants into the nuclear club This book will be of much interest to students of nuclear proliferation global governance and International Relations in general
