

RELATIONAL DIALECTICS THEORY

Relational dialectics theory explains human interactions. The 4 key features of RDT are: contradiction, totality process and praxis. Below are the 4 key assumptions.

CONTRADICTION

Relationships are always in 'contradiction' because they have inbuilt tensions.

TOTALITY

The theory believes that you should look at the 'totality' of the contradictions in a relationship to see the challenges that exist and how to address them.

PROCESS

Relationships also are constantly in a 'process of change' so they never stay the same.

PRAXIS

'Praxis' is a word that explains how we act in a relationship: we can either accept and accommodate the other person's needs, or act out negatively when tensions occur.

The Dialectics of Democracy Dimitrios Kivotidis,2024-03-05

This book examines how the democratic form and the struggle for democracy reflects influences and shapes the struggle for social emancipation In the context of increased exploitation rising inequality and intensified struggle for social justice in the aftermath of the economic crisis the channelling of populism through liberal democratic institutions has had contradictory effects giving rise to both Corbyn and Brexit Sanders and Trump Syriza and the Golden Dawn to name but a few How can we make sense of these developments In response this book approaches the idea of democracy from a socialist constitutionalist standpoint and explores institutional forms and principles that challenge and aim at the transformation of the extant social order This process involves the challenging of well established ideas of the liberal viewpoint as well as an unwavering focus on the issue of class rule which enables the highlighting of limitations of not only mainstream but also heterodox contemporary approaches to constitutionalism and democracy Ultimately democracy is conceived as a process of struggle for creating the conditions material as well as intellectual for its actualisation This significant work of legal and political theory will be of considerable interest to those working in these areas to make sense of contemporary developments and to further the causes of social justice and social emancipation

Hegel, Deleuze, and the Critique of Representation Henry

Somers-Hall,2012-02-14 *Hegel Deleuze and the Critique of Representation* provides a critical account of the key connections between twentieth century French philosopher Gilles Deleuze and nineteenth century German idealist G W F Hegel While Hegel has been recognized as one of the key targets of Deleuze s philosophical writing Henry Somers Hall shows how Deleuze s antipathy to Hegel has its roots in a problem the two thinkers both try to address getting beyond a philosophy of judgment and the restrictions of Kant s transcendental idealism By tracing the development of their attempts to address this problem Somers Hall offers an interpretation of the sweep of nineteenth and twentieth century philosophy providing a series of analyses of key moments in the history of thought including the logics of Aristotle and Russell Kant s own philosophy of judgment and the philosophy of Bergson He also develops a novel interpretation of Deleuze s philosophy of difference and situates his philosophy in relation to the broader post Kantian tradition In addition to Deleuze s relation to Hegel the book makes important contributions to the study of Deleuze s philosophy of mathematics as well as to the study of several underappreciated areas of Hegel s own philosophy

Tillie Olsen and the Dialectical Philosophy of Proletarian

Literature Anthony Dawahare,2018-10-19 Contrary to previous studies of Tillie Olsen s writing *Tillie Olsen and the Dialectical Philosophy of Proletarian Literature* analyzes the impact of one of the most important philosophies of the last century dialectical materialism on the form and content of Olsen s fiction By revealing the unconceptualized dialectics of Olsen s work and its appreciation by scholars and casual readers this study achieves a dialectical synthesis that incorporates and extends the insights of and about Olsen in terms of dialectical materialism By foregrounding Olsen s dialectical approach

it explains and largely resolves apparent contradictions between her Marxism and feminism her depictions of class race and gender the literature of her earlier and later periods and her use of realist and modernist literary forms and techniques Consequently this project makes a case for the importance of Olsen s Marxist education during the Red Decade of the 1930s and within the U S proletarian literary movement

Hegel's Dialectic of Desire and Recognition John

O'Neill,1996-02-01 This book presents three generations of German French and Anglo American thinking on the Hegelian narrative of desire recognition and alienation in life labor and language a narrative that has been subject to extensive commentary in philosophy literature psychoanalysis and feminist thought The texts focus on a central topos in Western thought the story of self consciousness awakened in nature and in history John O Neill argues that current postmodern rejections of the Hegelian Marxist narrative demand an understanding of the texts included here Without Hegel and Marx in our toolbox he argues we will flounder in a world marked by the split between postmodern indifference and premodern passion The book makes a strong selection from the history of Hegelian Marxist debate hermeneutical and critical theory and Freudian Lacanian and feminist commentary on the dialectic of desire and recognition on the levels of social psychology and political economy Included are articles by Karl Marx G W F Hegel Alexandre Kojve Jean Hyppolite Jean Paul Sarte Georg Lukacs J rgen Habermas Hans Georg Gadamer Howard Adelman Shlomo Avineri Jessica Benjamin Edward S Casey and J Melvin Woody Henry S Harris George Armstrong Kelly Ludwig Siep Judith N Shklar and Henry Sussman The texts and commentaries show how the Hegelian Marxist narrative of desire recognition and alienation is a contested story one in which class race and gender issues are drawn into a historical romance that is being rewritten in contemporary cultural politics

Dialectics of the Ideal ,2013-11-28 In Dialectics of the Ideal Evald Ilyenkov and Creative Soviet Marxism Levant and Oittinen provide a window into the subterranean tradition of creative Soviet Marxism which developed on the margins of the Soviet academe and remains largely outside the orbit of contemporary theory in the West With his activity approach E V Ilyenkov its principal figure in the post Stalin period makes a substantial contribution toward an anti reductionist Marxist theory of the subject which should be of interest to contemporary theorists who seek to avoid economic and cultural reductionism as well as the malaise of postmodern relativism This volume features Levant s translation of Ilyenkov s Dialectics of the Ideal 2009 which remained unpublished until thirty years after the author s tragic suicide in 1979

The Philosophical Foundations of Ecological Civilization Arran Gare,2016-08-05 The global ecological crisis is the greatest challenge humanity has ever had to confront and humanity is failing The triumph of the neo liberal agenda together with a debauched scientism has reduced nature and people to nothing but raw materials instruments and consumers to be efficiently managed in a global market dominated by corporate managers media moguls and technocrats The arts and the humanities have been devalued genuine science has been crippled and the quest for autonomy and democracy undermined

The resultant trajectory towards global ecological destruction appears inexorable and neither governments nor environmental movements have significantly altered this or indeed seem able to

The Philosophical Foundations of Ecological Civilization is a wide ranging and scholarly analysis of this failure This book reframes the dynamics of the debate beyond the discourses of economics politics and techno science Reviving natural philosophy to align science with the humanities it offers the categories required to reform our modes of existence and our institutions so that we augment rather than undermine the life of the ecosystems of which we are part From this philosophical foundation the author puts forth a manifesto for transforming our culture into one which could provide an effective global environmental movement and provide the foundations for a global ecological civilization

Valences of the Dialectic Fredric Jameson, 2020-05-05 After half a century exploring dialectical thought renowned cultural critic Fredric Jameson presents a comprehensive study of a misunderstood yet vital strain in Western philosophy The dialectic the concept of the evolution of an idea through conflicts arising from its inherent contradictions transformed two centuries of Western philosophy To Hegel who dominated nineteenth century thought it was a metaphysical system In the works of Marx the dialectic became a tool for materialist historical analysis Jameson brings a theoretical scrutiny to bear on the questions that have arisen in the history of this philosophical tradition contextualizing the debate in terms of commodification and globalization and with reference to thinkers such as Rousseau Lukcs Heidegger Sartre Derrida and Althusser Through rigorous erudite examination **Valences of the Dialectic** charts a movement toward the innovation of a spatial dialectic Jameson presents a new synthesis of thought that revitalizes dialectical thinking for the twenty first century
