The Origins Of Neuro Linguistic Programming John Grinder, 2013-05-09 The Origins of NLP brings together the recollections and thoughts of some of the main protagonists from the very early days of NLP In 1971 Richard Bandler and Frank Pucelik were students at Kresge College at the University of California Santa Cruz They had a strong mutual interest in Gestalt Therapy Frank because of his traumatic time in Vietnam and because he had been working with some disaffected and drug addicted kids and Richard because he had been working with Science and Behavior Books on transcribing and editing Fritz Perls seminal work The Gestalt Approach and Eyewitness to Therapy They started a local Gestalt group and ran 2 3 sessions a week collaborating and experimenting with the language of therapy They started achieving some brilliant results but were having problems transferring their skills to others and so Richard invited one of their college professors John Grinder to observe what they were doing in order that he would hopefully be able to deconstruct what they were doing that was so effective John was a professor of Linguistics and was instantly impressed with the work that they were doing He was able to add more structure and in due course the three of them formalised what is now known as the Meta Model NLP or Meta as it was known then was born

in many of the world's troubled regions **Demystifying Schizophrenia for the General Practitioner** Steven J. The authors provide expert guidance on helping patients to cope with family and cultural issues for this highly complex disorder **Demystifying Psychiatry** Charles F. Zorumski, MD, Eugene Rubin, MD, PhD, 2009-10-08 Psychiatry is arguably the most misunderstood specialty in modern medicine, and psychiatrists are often thought of as part physician, part confessor, part police officer, and part shaman. In *Demystifying Psychiatry*, two eminent psychiatrists offer an illuminating look at the entire field, offering a clear and informative portrait of a medical specialty often clouded in myth. Zorumski and Rubin range from a basic discussion of what psychiatry is to the types of illnesses psychiatrists treat, the training of psychiatrists, the treatment of psychiatric disorders, covering medications, psychotherapy, lifestyle interventions, electroconvulsive therapy, and much more, and how families can help with treatment. They caution the consumer about practices that should raise red flags. The book also covers new trends in psychiatry and explores the future of the field, predicting that major advances in genetics and neuroscience will lead to rapid and amazing changes in psychiatry. The book concludes with extensive reference materials that will be valuable both to general readers and medical practitioners La magia de la PNL al descubierto Byron Lewis, 2015-05-29 Sencillo de leer pero no simple: esta obra proporciona un camino fácil hacia la magia del lenguaje y el cambio. Ian McDermott, Director de formación de International Teaching Seminars (ITS). Este libro es una muy rica y profunda presentación de los más importantes conceptos de la PNL y de su relación con la psicología. Judith Delozier, co-desarrolladora de la PNL. Con materiales nuevos y actualizados, particularmente las nuevas distinciones del metamodelo, presentamos la segunda edición de una obra que ha sido considerada durante mucho tiempo como una de las mejores introducciones a la PNL. El modelo de lenguaje de comunicación que introduce es una aproximación excelente al estudio de la comunicación humana y del cambio terapéutico. Directivos comerciales, asesores, terapeutas, padres, educadores y todas las personas interesadas o implicadas en la comunicación con capacidad de influencia y en el cambio personal se beneficiarán de la lectura de este libro. Ilustrado y escrito en un estilo informal y ameno, muestra el poder del lenguaje para cambiar a las personas e influir en ellas y proporciona formas prácticas de adquirir esas habilidades. En definitiva, es la mejor descripción que existe del metamodelo de la PNL y de su uso práctico, y ahora se ofrece completamente actualizada. Byron Lewis estudió bajo la guía del doctor John Grinder participando en las primeras investigaciones que sentaron las bases de la PNL. Durante la década de 1980 fue el director del Meta Training Institute y dirigió seminarios y talleres en el ámbito de la PNL. Desde entonces se ha especializado
