Literature and Science Added to the Public Library of Cincinnati During the Year..., 1887 Bulletin of Books in the Various Departments of Literature and Science Added to the Public Library of Cincinnati During the Year... Public Library of Cincinnati and Hamilton County, 1887 **The Warner Library: The student's course in literature. General index** Charles Dudley Warner, John William Cunliffe, Ashley Horace Thorndike, Harry Morgan Ayres, Helen Rex Keller, Gerhard Richard Lomer, 1917 *Volume 2, Tome II: Kierkegaard and the Greek World - Aristotle and Other Greek Authors* Katalin Nun, 2016-12-05 The articles in this volume employ source work research to trace Kierkegaard's understanding and use of authors from the Greek tradition. A series of figures of varying importance in Kierkegaard's authorship are treated ranging from early Greek poets to late Classical philosophical schools. In general, it can be said that the Greeks collectively constitute one of the single most important body of sources for Kierkegaard's thought. He studied Greek from an early age and was profoundly inspired by what might be called the Greek spirit. Although he is generally considered a Christian thinker, he was nonetheless consistently drawn back to the Greeks for ideas and impulses on any number of topics. He frequently contrasts ancient Greek philosophy with its emphasis on the lived experience of the individual in daily life with the abstract German philosophy that was in vogue during his own time. It has been argued that he modeled his work on that of the ancient Greek thinkers specifically in order to contrast his own activity with that of his contemporaries. Demystifying Scriabin Kenneth Smith, Vasilis Kallis, 2022 An innovative contribution to Scriabin studies covering aspects of Scriabin's life, personality, beliefs, training, creative output, and interaction with contemporary Russian culture. This book is an innovative contribution to Alexander Scriabin 1872-1915 studies covering aspects of Scriabin's life, personality, beliefs, training, creative output, as well as his interaction with contemporary Russian culture. It offers new and original research from leading and upcoming Russian music scholars. Key Scriabin topics such as mysticism, philosophy, music theory, contemporary aesthetics, and composition processes are covered. Musical coverage spans the composer's early, middle, and late period. All main repertoire is being discussed: the piano miniatures and sonatas as well as the symphonies. In more detail, chapters consider Scriabin's part in early twentieth-century Russia's cultural climate, how Scriabin moved from early pastiche to a style much more original, the influence of music theory on Scriabin's idiosyncratic style, the changing contexts of Scriabin performances, new aspects of reception studies. Further chapters offer a critical understanding of how Scriabin's writings sit within the traditions of Mysticism as well as French and Russian Symbolism, a new investigation into his creative compositional process, miniaturism, and its wider context, a new reading of the composer's mysticism and synaesthesia. Analytical chapters reach out of the score to offer an interpretative framework, accepting new approaches from disability studies, investigating the complex interaction of rhythm and metre and modal interactions, the latent diatonic tonal function of Scriabin's late works, as well as self-regulating structures in the composer's music. Poetry in Dialogue in the Duecento and Dante David Bowe,2020-11-20 Poetry in Dialogue in the Duecento and Dante provides a new perspective on the highly networked literary landscape of thirteenth and fourteenth century Italy It demonstrates the fundamental role of dialogue between and within texts in the works of four poets who represent some of the major developments in early Italian literature Guittone d Arezzo Guido Guinizzelli Guido Cavalcanti and Dante Rather than reading the cultural landscape through the lens of Dante s works significant though they may be the first part of this study reconstructs the rich network of literary especially poetic dialogue that was at the heart of medieval writing in Italy The second part uses this reconstruction to demonstrate Dante s engagement with and indebtedness to the dynamics of exchange that characterised the practice of medieval Italian poets The overall argument for the centrality of dialogic

processes to the emerging Italian literary tradition is underpinned by a conceptualisation of dialogue in relation to medieval and modern literary theory and philosophy of language By triangulating between Brunetto Latini's *Rettorica* Mikhail Bakhtin's dialogism and as sense of performative speech adapted from J L Austin Poetry in Dialogue shows the openness of its corpus to new dialogues and interpretations highlighting the instabilities of even the most apparently fixed monumental texts ,
