Blood Money Richard Nowell, 2010-12-23 Scholars have consistently applied psychoanalytic models to representations of gender in early teen slasher films such as Black Christmas 1974 Halloween 1978 and Friday the 13th 1980 in order to claim that these were formulaic excessively violent exploitation films fashioned to satisfy the misogynist fantasies of teenage boys and grind house patrons However by examining the commercial logic strategies and objectives of the American and Canadian independents that produced the films and the companies that distributed them in the US Blood Money demonstrates that filmmakers and marketers actually went to extraordinary lengths to make early teen slashers attractive to female youth to minimize displays of violence gore and suffering and to invite comparisons to a wide range of post classical Hollywood s biggest hits including Love Story 1970 The Exorcist 1973 Saturday Night Fever 1977 Grease and Animal House both 1978 Blood Money is a remarkable piece of scholarship that highlights the many forces that helped establish the teen slasher as a key component of the North American film industry s repertoire of youth market product
