Speak Out Against The New Right:

Women of the New Right Rebecca Klatch, 2010-09-13 The first coherent picture of who joins such movements as the New Right and how they think *Speak Out, Against the New Right* Herbert F. Vetter, 1982 Twenty three important figures in government the arts medicine religion business and science assess the New Right's inroads into our political system and present level headed rebuttals to these vociferous attacks on women's rights sex education in the schools welfare programs abortion international detente and more A fresh perspective on the political battle of the new millennium Speak Out provides valuable tactics for responsible activism Criticizing Science Myrna Perez, 2024-12-17 This work is an examination of the criticisms of science from both left and right wing political movements through the lens of the scientist Stephen Jay Gould

The Wiley Blackwell Companion to Religion and Ecology John Hart, 2017-03-24 In the face of the current environmental crisis which clearly has moral and spiritual dimensions members of all the world's faiths have come to recognize the critical importance of religion's relationship to ecology The Wiley Blackwell Companion to Religion and Ecology offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world Newly commissioned essays from noted scholars of diverse faiths and scientific traditions present the most cutting edge thinking on religion's relationship to the environment Initial readings explore the ways traditional concepts of nature in Christianity Judaism Islam Buddhism and other religious traditions have been shaped by the environmental crisis Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment Various conceptual issues and themes that transcend individual traditions climate change bio ethics social justice ecofeminism and more are then analyzed before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism Timely and thought provoking Companion to Religion and Ecology offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb

New Right, New Racism Amy Elizabeth Ansell, 2016-07-27 New Right New Racism is a comparative analysis of the role of racialized symbols in the right turn of US and British politics in the late 1970s through to today The author argues that the symbol of race has been central to the New Right's project to redefine the cultural codes and broader social imaginary upon which the consensus politics of the post war years was built In the process of mobilizing race as an ideological articulator of the exit from consensus politics the New Right has promoted a new form of racism qualitatively distinct from more traditional forms **The Age of Evangelicalism** Steven P. Miller, 2014-04-10 At the start of the twenty first century America was awash in a sea of evangelical talk The Purpose Driven Life Joel Osteen The Left Behind novels George W Bush Evangelicalism had become so powerful and pervasive that political scientist Alan Wolfe wrote of a sense in which we are all evangelicals now Steven P Miller offers a dramatically different perspective the Bush years he

argues did not mark the pinnacle of evangelical influence but rather the beginning of its decline The Age of Evangelicalism chronicles the place and meaning of evangelical Christianity in America since 1970 a period Miller defines as America's born again years This was a time of evangelical scares born again spectacles and battles over faith in the public square From the Jesus chic of the 1970s to the Satanism panic of the 1980s the culture wars of the 1990s and the faith based vogue of the early 2000s evangelicalism expanded beyond churches and entered the mainstream in ways both subtly and obviously influential Born again Christianity permeated nearly every area of American life It was broad enough to encompass Hal Lindsey's doomsday prophecies and Marabel Morgan's sex advice Jerry Falwell and Jimmy Carter It made an unlikely convert of Bob Dylan and an unlikely president of a divorced Hollywood actor As Miller shows evangelicalism influenced not only its devotees but its many detractors religious conservatives secular liberals and just about everyone in between The Age of Evangelicalism contained multitudes it was the age of Christian hippies and the silent majority of Footloose and The Passion of the Christ of Tammy Faye Bakker the disgraced televangelist and Tammy Faye Messner the gay icon Barack Obama was as much a part of it as Billy Graham The Age of Evangelicalism tells the captivating story of how born again Christianity shaped the cultural and political climate in which millions of Americans came to terms with their times

Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title and author

Ideological Possession and the Rise of the New Right Laurie M. Johnson, 2019-05-16 Political theorist Laurie M. Johnson deals with Jung's analysis of the effects of modern scientific rationalism on the development of communism fascism and Nazism in the 20th century and applies this analysis to the rise of the New Right in the 21st century Jung's thought provides much needed insight into contemporary ideologies such as neoliberalism Identitarianism and the Alt Right Johnson explains Jungian analytical psychology as it relates to these topics with a chapter devoted to Jung's views of Friedrich Nietzsche who exemplifies the modern problem with his proclamation that God is dead and an in depth discussion of Jung's views on truth and the psychological function of religion as a safeguard against deadly mass movements She then turns to Jung's treatment of anti-Semitism and the Nazi movement and his views on race and racism Johnson applies these historical insights to the current manifestations of mass psychological disruption in the clash between neoliberals and the right wing populist and Identitarian movements on the rise in North America and Europe She concludes by discussing the search for an

authentic and meaningful life in a West that rejects extremism and is open to authentic spiritual experiences as a counterbalance to mass mindedness Ideological Possession and the Rise of the New Right will appeal to both undergraduate and graduate students of psychology and intellectual history The book will also be of interest to those wishing to understand the new nationalist nativist and Identarian movements **Comparative Health Policy and the New Right** Christa Altenstetter, Stuart C. Haywood, 1991-06-18 A compilation of essays which examine the response of the new Right to health policy issues While economic circumstances dictate the pressures placed on policy makers it is argued that there is a gap between the rhetoric they espouse and the actions initiatives taken **The Reagan Revolution and the Rise of the New Right** Kenneth J. Heineman, 2021-06-24 For students of U S history The Reagan Revolution explores how a Hollywood upstart and eventual conservative leader became one of the most successful and influential presidents in U S history one whose presidency helped to define the end of the Cold War This book covers Ronald Reagan s long rise to the presidency and the conservative political revolution he brought about in the 1980s Spurning the moderate values and policies Republicans had previously championed Reagan s revolution continues to play an outsized role in America s political life This important reference book gives browsers and readers alike an opportunity to focus on many of the intertwined issues of the 1980s abortion gay rights law and order the Cold War tax cuts de industrialization the Religious Right and the political divisions that made Reagan s legislative victories possible The book opens with a concise biography covering Reagan s rise from radio personality and actor to governor and president Subsequent chapters cover politics and policy Chapters also include an important review of Reagan s legendary public relations operations morning in America and the perfection of the television photo op and the ways in which 1980s popular culture influenced and was influenced by his presidency This section portrays Reagan as a product of Hollywood who keenly understood the importance of public opinion and creating a positive image
