The story of *Spearhead in the West* recounts the early history of the 3rd Armored Division its training in various locations both in the United States and in England and its combat record from Normandy to the banks of the River Elbe in Germany The book is conveniently divided into three distinct sections the combined history and battle lore of the entire division The first section is given over to an introduction of *Spearhead* units and organization The second section provides a popular narrative account together with sketches and photographs of important scenes persons and events The third and final section retells the accurate battle history of the division as compiled from the mass of official documents journals and records A narrative of hard training and bitter combat of local reverses and the stunning victory that befits a great armored division this book is a must read for any history buff

The Jedburghs Will Irwin, 2009-04-29 The story of the Special Forces in World War II has never fully been told before Information about them began to be declassified only in the 1980s Known as the Jedburghs these Special Forces were selected from members of the British American and Free French armies to be dropped in teams of three deep behind German lines There in preparation for D Day they carried out what we now know as unconventional warfare supporting the French Resistance in guerrilla attacks supply route disruption and the harassment and obstruction of German reinforcements Always they operated against extraordinary odds They had to be prepared to survive pitched battles with German troops and Gestapo manhunts for weeks and months while awaiting the arrival of Allied ground forces They were in short heroes The *Jedburghs* finally tells their story and offers a new perspective on D Day itself Will Irwin has selected seven of the Jedburgh teams and told their stories as gripping personal narratives He has gathered archival documents diaries and correspondence and interviewed Jed veterans and family members in order to present this portrait of their crucial role a role recognized by Churchill and Eisenhower in the struggle to liberate Europe in 1944-45 This is narrative history at its most compelling a vivid drama of the battle for France from deep behind enemy lines
