Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs, 2016 **Combating Anti-Semitism** United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Organizations, Human Rights, and Oversight, 2010 **The Politics of Marginality** Tony Kushner, Kenneth Lunn, 2012-11-12 Immigration to Britain has rarely achieved the levels experienced by the US but it is nevertheless true of all periods that immigrants refugees and sojourners have been continually present While we may have the beginnings of a history of immigration ethnicity and race in Britain there is a lack of historiographical awareness in the subject The essays in this collection ranging from specific case studies to broad themes are an attempt to provide a basis for future discussion *Monthly Catalog of United States Government Publications*, 2003-07 Maryland School Bulletin Maryland. State Dept. of Education, 1928 Biographical Dictionary of Dissidents in the Soviet Union, 1956-1975 E.J. Driessen, H.L. Verhaar, S.P. de Boer, 2024-11-25 **Jews and the Left** P. Mendes, 2014-05-20 The historical involvement of Jews in the political Left is well known but far less attention has been paid to the political and ideological factors which attracted Jews to the Left After the Holocaust and the creation of Israel many lost their faith in universalistic solutions yet lingering links between Jews and the Left continue to exist New Battlefields/Old Laws William C. Banks, 2011-10-25 An internationally recognized authority on constitutional law national security law and counterterrorism William C Banks believes changing patterns of global conflict are forcing a reexamination of the traditional laws of war The Hague Rules the customary laws of war and the post 1949 law of armed conflict no longer account for nonstate groups waging prolonged campaigns of terrorism or even more conventional insurgent attacks Recognizing that many of today's conflicts are low intensity asymmetrical wars fought between disparate military forces Banks's collection analyzes nonstate armed groups and irregular forces such as terrorist and insurgent groups paramilitaries child soldiers civilians participating in hostilities and private military firms and their challenge to international humanitarian law Both he and his contributors believe gaps in the laws of war leave modern battlefields largely unregulated and they fear state parties suffer without guidelines for responding to terrorists and their asymmetrical tactics such as the targeting of civilians These gaps also embolden weaker nonstate combatants to exploit forbidden strategies and violate the laws of war Attuned to the contested nature of post 9/11 security and policy this collection juxtaposes diverse perspectives on existing laws and their application in contemporary conflict It sets forth a legal definition of new wars describes the status of new actors charts the evolution of the twenty first century battlefield and balances humanitarian priorities with military necessity

While the contributors contest each other they ultimately reestablish the legitimacy of a long standing legal corpus and they rehumanize an environment in which the most vulnerable targets civilian populations are themselves becoming weapons against conventional power Anti-Semitism in Germany Rainer Erb, 2018-05-04 The surrender of Nazi Germany in 1945 marked the end of an epoch during which anti-Semitism escalated into genocide In the immediate aftermath of World War II Nazi racist ideology was discredited morally and politically and the Allied occupation forces prohibited its dissemination in public However there was no overnight transformation of individual anti-Semitic attitudes among the public at large Most surveys conducted since 1946 have confirmed the persistence of massive anti-Semitism in Germany both in the democratic West and the communist East Based on all empirical survey data available up to now this volume offers a thorough comparative analysis of anti-Semitism in Germany and in particular its resurgence with the rise of right wing extremism since unification Anti-Semitism in Germany reflects a historically unique opportunity to compare the attitudes of two population groups that shared a common history up to 1945 and then lived under differing political conditions until 1989 The authors find distinct generational patterns in the survival and development of anti-Semitic attitudes In the Federal Republic hostility towards Jews was more manifest among those who had been socialized to it under the Weimar Republic and Third Reich but less prevalent in subsequent generations In contrast the authors show younger East Germans as more susceptible to anti-Semitism The economic and cultural crises of reunification underwrote the strident anti-Zionism of the former communist regime The authors also explore the anti-Semitic component of the recent wave of xenophobic violence and the disturbing rise of neo-Nazi political activity This volume is especially noteworthy in its examination of a secondary anti-Semitism closely tied to the issue of coming to terms with the Nazi past The motives behind persisting anti-Semitism can no longer be attributed to ethnic conflict but go to the core discrepancy between wanting to forget and being reminded The authors consider this phenomenon within the framework of current German political culture In its comprehensiveness and methodological sophistication Anti-Semitism in Germany is a major contribution to the literature on modern anti-Semitism and ethnic prejudice It will be read by historians political scientists sociologists and Jewish studies specialists
