

Лексика говора Владимирской области (Ковровский, Муромский, Селивановский, Судогодский, Юрьев-Польский районы) представляет как общепородные слова, так и диалектные. Большинство слов относится к общепородной лексике. По территории распространения лексика данного говора неоднородна. При классификации диалектной лексики с использованием понятия «диалектное различие» не встретились противопоставленные диалектные различия. Основную часть составляют противопоставленные диалектные различия. Часто встречаются слова-синонимы, в основном, интрадиалектные. Обширную группу составляют разнодиалектные синонимы. При рассмотрении вариантов различий выделяются фонематические, акцентологические, грамматические, лексико-морфологические, лексико-семантические. Самую многочисленную группу образуют лексико-семантические варианты слов. Некоторые слова лексики анализируемого говора имеют оттенок устарелости. Характерной особенностью системы отношений в лексике владимирского говора является то, что синонимы образованы при помощи номинативного метафорического переноса внешнего сходства от литературного эквивалента к диалектизму, а полемия основана на мет-семантическом переносе: от целого – к частному.
