Spillikins James Owen Hannay, 1926 Jane Austen: Bicentenary Essays John Halperin, 1975-10-31 This book was first published in 1975 the bicentenary of Jane Austen's birth Though she has long been recognized as one of the major English novelists her reputation was established relatively late and has withstood periods of neglect and controversy The present volume brings together nineteen essays that marked the bicentenary and in doing so reflected the critical attitudes which some of the twentieth century's most influential scholars have entertained towards the novelist These essays range from nineteenth century reactions to the novels and to the novelist herself through twentieth century criticism of the individual novels to considerations of the novelist's reputation abroad This book will be of interest both to scholars and students of eighteenth and nineteenth century fiction and also to the general reader of Jane Austen's novels **Spillikins; A Book of Essays by George A. Birmingham Pseud..** George A. Birmingham, 1926 All Is Grist - A Book of Essays G. K. Chesterton, 2014-04-15 This early work by G K Chesterton was originally published in 1903 Gilbert Keith Chesterton was born in London in 1874 All is Grist is a collection of essays He studied at the Slade School of Art and upon graduating began to work as a freelance journalist Over the course of his life his literary output was incredibly diverse and highly prolific ranging from philosophy and ontology to art criticism and detective fiction However he is probably best remembered for his Christian apologetics most notably in *Orthodoxy* 1908 and *The Everlasting Man* 1925 We are republishing these classic works in affordable high quality modern editions using the original text and artwork *Essays on Books* Arthur Clutton-Brock, 1928 *Matter, Life, Mind, and God : Five Lectures on Contemporary Tendencies of Thought* Reinhold Friedrich Alfred Hoernlé, 1926 *Spillikins* George A. Birmingham, 1970 Reader's Index and Guide , 1927 **Revival: Cartels, Concerns and Trusts (1932)** Robert Liefmann, 2018-05-08 This volume makes available to English readers the best known and most frequently quoted study of industrial combination from the German point of view There is an abundance of literature on the trusts from economists who have lived close to that evolution and the trusts by their more challenging position were for two decades the centre of the discussion which turned on what in industry was safe for democracy Meanwhile in Germany the alternative of the cartel was having a less noticed a controversial development until in Westphalia there was created out of lower forms a working model which was new and unique in the manner in which it related producers to each other and to the market In only a few industries has this model been fully established but it presents a rival type to the trusts and places the problem of combination on a different basis of analysis and tendency The distinction between these two forms may be a matter of industries or of national law and psychology or they may work together the cartel being the general envelop within which fusions are created the types are nevertheless distinct so much so that rationalization as a general term rather denotes than defines them both IN America the Cartel is illegal so that industry has sought its administrative solution in fusions in England trusts and cartels co exist in Germany they are interlaced great trusts

having their feet in one cartel their shoulders in another and their heads in a third
