Spinsters Lesbians:

Spinsters and Lesbians Trisha Franzen, 1996 Americans have long held fast to a rigid definition of womanhood revolving around husband home and children Women who rebelled against this definition and carved out independent lives for themselves have often been rendered invisible in U S history In this unusual comparative study Trisha Franzen brings to light the remarkable lives of two generations of autonomous women Progressive Era spinsters and mid twentieth century lesbians While both groups of women followed similar paths to independence separating from their families pursuing education finding work and creating woman centered communities they faced different material and cultural challenge and came to claim very different identities Many of the turn of the century women were prominent during their time from internationally recognized classicist Edith Hamilton through two early Directors of the Women s Bureau Mary Anderson and Freida Miller Maturing during the time of a broad and powerful women s movement they were among that era s new women the often single women who were viewed as in the vanguard of women s struggle for equality In contrast never married women after World War II especially lesbians were considered beyond the pale of real womanhood Before the women s and gay lesbian liberation movements they had no positive contemporary images of alternative lives for women Highlighting the similarities and differences between women oriented women confronting changing gender and sexuality systems Spinsters and Lesbians thus traces a continuum among women who constructed lives outside institutionalized heterosexuality

inside Would your family murder you There s been a murder Standard The family are suspects Standard Detective Inspector Forest is investigating Not standard He isn t one for too much police procedure It gets in the way of proper investigation Poor Mary is dead Thrown from a window Forest needs to find her killer but he d quite like a pint and he really likes Detective Sergeant Senga McLean Can he solve the case get the girl and sink a pint From the fans a fast moving rollercoaster of how police investigations actually happen Gripping and funny deliciously dark humour combined with an edginess that made for a fantastically fast paced thriller Interview with the author So why crime fiction As a former UK police officer police procedurals mysteries and crime fiction were the obvious choices I mean who better to write thrillers about serial killers than someone who was in the life As a cop that is not as a killer What spurred you on to write Well there are many great British and Irish crime fiction writers and the Scottish crime fiction market is burgeoning As a boy I was an avid reader Mysteries and thrillers to begin with before graduating on to crime fiction When I eventually gave in to my burning

desire to write it was inevitable given my police background that detective fiction was the stand I'd hang my author's hat on. How would you define your genre? Humorous Scottish crime fiction. There are a multitude of fantastic police procedurals out there with a lot of focus on the actual police processes and there's a tendency to assume that murder fiction, noir, crime, mysteries, thrillers etc. have to be serious books. But trust me, the reality is that murder detectives rely on their humour to get them through the day. Without it, they'd probably end up serial killers themselves.

Odd women? Emma Liggins, 2016-05-16. This genealogy of the odd woman compares representations of spinsters, lesbians and widows in British women's fiction and autobiography from the 1850s to the 1930s. Women outside heterosexual marriage in this period were seen as abnormal, superfluous, incomplete and threatening, yet were also hailed as women of the future. Before 1850, odd women were marginalised minor characters in British women's fiction; yet by the 1930s, spinsters, lesbians and widows had become heroines. This book examines how women writers including Charlotte Brontë, Elisabeth Gaskell, Ella Hepworth Dixon, May Sinclair, E. H. Young, Radclyffe Hall, Winifred Holtby and Virginia Woolf challenged dominant perceptions of singleness and lesbianism in their novels, stories and autobiographies. Drawing on advice literature, medical texts and feminist polemic, it demonstrates how these narratives responded to contemporary political controversies around the vote, women's work, sexual inversion and birth control, as well as examining the impact of the First World War.

Mapping Desire David Bell, Gill Valentine, 1995. This is the first book to explore sexualities from a geographical perspective. The nature of place and notions of space are of increasing centrality to cultural and social theory. Mapping Desire presents the rich and diverse world of contemporary sexuality, exploring how the heterosexual body has been appropriated and resisted on the individual, community and city scales. The geographies presented here range across Europe, America, Australasia, Africa, the Pacific and the imaginary, cutting across city and country and analysing the positions of gay men, lesbians, bisexuals and heterosexuals. The contributors bring different interests and approaches to bear on theoretical and empirical material from a wide range of sources. The book is divided into four sections: cartographies, identities, sexualised spaces, global/local, sexualised spaces, local/global, sites of resistance. Each section is separately introduced. Beyond the bibliography, an annotated guide to further reading is also provided to help the reader map their own way through the literature.

Single Lives Katherine Fama, Jorie Lagerwey, 2022-05-13. Inspired by the current public fascination with single women, Single Lives traces the relationship between modern and contemporary representations of single women. The original essays collected here analyze a broad range of texts that examine the ways films, cookbooks, archives, popular literature and other British and American texts express norms, ideals and challenges for single women and their relationship to dominant ideals of marriage and the family. This volume looks backwards to constellate existing scholarship, constituent fields and unrecognized single voices and forward to consider new methods for interdisciplinary singles studies.
