Perkinson, 2019-04-11 This book offers resources for re imagining the biblical vision of water for a time quickly emerging as the century of water wars It takes its urgency from the author's 5 year activist engagement with a grass roots led social movement pushing back on Detroit water shutoffs as global climate crises intensify Concerned with both white supremacist biopolitics and continuing settler colonial reliance on the Doctrine of Christian Discovery and beholden to an interreligious

methodology of crossing over and coming back the text creatively re reads the biblical tradition under tutelage to the mythologies and practices of various indigenous cultures Algonquian Huron Haitian Vodouisant and Celtic Norman whose embrace of water is animate and spiritual as well as political and communal Not enough today merely to engage the political battle over water rights however indigenous wisdom and biblical prophecy alike insist that recovery of water spirituality is central to a sustainable future
