Spiritual Education:

Spiritual Education Cathy Ota, 2005-03-20 Volume III of the Spirituality and Ethics in Education series bring together textual empirical and pedagogical approaches to enriching spiritual education as a significant multi disciplinary and cross curricular influence in the modern world The chapters presented have been selected from international contributions presented at the 3rd International Conference on Spiritual Education The writers include prominent international researchers in the discipline from the UK the United States Canada Australia and China The strengths of the book lie in its international appeal research based orientation and interdisciplinary character The book will be the first coherent presentation of spiritual education as a distinctive field of academic enquiry in its own right **Spiritual Education in a**

Divided World Cathy Ota, Mark Chater, 2007-03-15 In the era of globalization debate has turned to the vital need for a thorough understanding of its impact on the spirituality and health of the youth of today Spiritual Education in a Divided World recognises the urgent need for effective research in this area This exceptional volume takes an interdisciplinary approach to tackle the key question *New Perspectives on Religious and Spiritual Education* Theo van der Zee, Terence J. Lovat, 2012 Society is a complex phenomenon characterized by constant change often entailing conflict This is seen in our own times where philosophies and movements of individualism pluralism and globalization intersect and often collide Still even in this fast moving and highly materialist world religion and spirituality remain crucial aspects of human and social living and therefore must be among the many focusses of the modern school Teachers of Religious and Spiritual Education RSE are therefore expected to support students religious and spiritual understanding as well as their overall development How can they best meet this challenge This book is comprised of various interdisciplinary research findings drawn from international scholarship The findings are of a different order from each other but all have in common an element of surprise sufficient to impel reflection and re thinking of many of the assumptions that normally underpin RSE The book therefore constitutes a contribution to ongoing understanding of the role played by religious and spiritual education and of the proper interface between RSE and the modern school contemporary curricula and the teacher of today Contributions by Robert Crotty Ola Erik Domaas Michael Fricke Liam Gearon Adrian Mario Gellel Eija Hanhimaki Laura Hirsto Tapani Innanen Terence Lovat Klaas Macha Emanuel P Magro Adil Mamodaly Fritz Oser Ulrich Riegel Inkeri Rissanen Sturla Sagberg Kirsi Tirri Theo van der Zee Karen Wenell **Spiritual Education and Social Change** Codrin Tapu, 2014-07-10 The last

decades have witnessed an increasing interest in a global ethic which proposes general guidelines of behavior applicable to all cultures and amends those spiritual interpretations and educational practices that are detrimental to personal and collective wellbeing These lecture notes are an educational resource for spiritual education moral education and counselling for secondary and university levels as well as for adult education and teacher training all within a worldwide multicultural framework Drawing from the ethical and spiritual treasure of humanity the book should help readers realize that the most

idealistic and humanistic of moral codes is also the most pragmatic and profitable for each individual who lives by it

Spiritual, Life and Values Education for Children John Chi-Kin Lee, 2024-07-19 This book offers various perspectives on children's spirituality and its relation to life and values education from diverse socio cultural and educational contexts. It brings together a collection of select research articles that were published over a period of two decades 1999-2020 in the International Journal of Children's Spirituality (IJCS) to celebrate the journal's 25th anniversary. Featuring contributions by leading international scholars from U K U S A Canada Hong Kong China and Australia, this volume offers a multidisciplinary snapshot of children's spirituality and its relation to life and values education. It highlights the importance of socio cultural and religious traditions as well as perspectives on religious education and the spirituality of children shaped by religious cultural and educational systems in specific societies and contexts. Chapters cover topics including the links between mirror neurons and human empathy and education, the relationship between spirituality and citizenship, the notion of inclusive spiritual education and the perspectives of spiritual education through the conceptual lens of transcendence, raised awareness and spiritualism, how outdoor play spaces can contribute to a child's spiritual development through enriching activities and approaches to help nurture students' spiritual growth in their aspects of themselves, self, others, the environment and with a Transcendent Other, transcendence. This volume will be a key resource for researchers and postgraduate students interested in understanding children's spirituality and its implications for spiritual life and values education. [Spiritual Experiences in Early Childhood Education](#) Jennifer Mata, 2014-06-13 Spirituality is frequently avoided in the public school classroom in an attempt to prevent controversy. However, by ignoring, preventing or discounting spirituality, educators can also inhibit children's spiritual development. Based on qualitative research and interactions with both children and adults, Jennifer Mata argues that educators should be responsible for addressing children's spirituality in the classroom and for re-introducing these topics into early childhood education. By surveying the existing literature on spirituality, Mata offers a working definition of spirituality as an essential characteristic of humanness which helps connect individuals to themselves, others and to the transcendent. The book portrays stories and descriptions of four kindergarten children in their classroom setting exploring their different modes of expressing and experiencing spirituality. Finally, *Spiritual Experiences in Early Childhood Education* offers a review of pedagogical strategies to nurture spirituality for both teachers to implement in the classroom and teacher educators to facilitate in teacher preparation programs. [Supporting Children and Youth Through Spiritual Education](#) Kirmani, Mubina Hassanali, Chapman, Amy L., Steele, Barbara M., Moallem, Mahnaz, Schroth, Stephen T., 2023-07-17 Across academic circles over the last few decades, the interest and inquiry on spirituality continues to broaden. Currently, the school system in the United States and many Western countries put their focus on academic achievement at the expense of preparing their students' inner cores for skills they will need to deal with a more complex and challenging world to come. *Supporting Children and Youth Through Spiritual Education* provides a platform for researchers and experts in the

field of spirituality in children and youth to voice the urgent need for an educational system that truly nurtures the whole child The book also considers the need to remove the misunderstandings about the terms spirituality and religion among those who work directly with children and youth Covering key topics such as religion cognitive development and spiritual needs this reference work is critical for principals administrators industry professionals researchers scholars practitioners academicians instructors and students

Spirituality and Education Andrew Wright,2000 This book introduces the basic contours of current debate in a form accessible to both classroom teachers across the curriculum range and to school managers

Spirituality, Philosophy and Education David Carr,John Haldane,2003-12-16 The contributors of this collection are all highly respected educational practitioners policymakers and philosophers The book examines the meaning role and possibilities of spirituality in education from a wide range of perspectives

Global Perspectives on Spirituality and Education Jacqueline Watson,Marian de Souza,Ann Trousdale,2013-12-04 In recent decades and around the world much attention has been given to the role of spirituality in the education of children and young people While educationalists share many common goals and values in nurturing the spiritual lives of children and young people national and regional cultures religions and politics have impacted on the approaches scholars and practitioners have adopted in their investigations and practices The different contexts across nations and regions mean that educators face quite distinct conditions in which to frame their approaches to spiritual education and research and the nature and impact of these differences is not yet understood This book brings together thinkers from around the globe and sets them the task of explaining how their research on children s spirituality and education has been shaped by the historical cultural religious and political contexts of the geographic region in which they work The book presents contributions in three sections Europe and Israel Australasia and The Americas and concludes with a chapter highlighting what is common and what is contextually unique about global approaches to spirituality and education
