Spirituality For An Anxious Age:

Spirituality for an Anxious Age Patrick Brennan, 1985-08
Brennan, 1985 **The Channeling Zone** Michael Fobes Brown, 1997 **Jacob's Hip** Kerry Walters, 2003 In the midst of fear and anxiety many people wonder where to find God Many of the images from recent events are so terrifying because they expose our deep vulnerability But in this little book Kerry Walters shows that it is in the heart of situations of vulnerability and insecurity that we achieve our greatest spiritual growth Just as Jacob discovered a blessing through his woundedness we too can find God in the midst of fragility and fear *Spirituality, Mental Health and Quality of Life* Naveen Pant, 2023-06-21 This book is about spiritual intelligence and its effects on mental health and quality of life As mental health and related problems are increasing rapidly and have become a matter of great concern there has not been a unanimous and empirical approach to assess and cure it due to its divergence or other causes This book is based on the most developed construct spiritual intelligence and its effects on mental health and quality of life Spirituality and its other constructs are one of the most interesting topics nowadays in the area of positive indigenous transpersonal psychology and among social behavioral scientists This book provides content on spirituality spiritual intelligence mental health and quality of life The book also attempts to review related literature whether review or empirical to have a look at past and current scenarios on spirituality and mental health and quality of life research Through an exploration of Indian indigenous psychology this book provides a look at mental health and the mind from an Indian psychological perspective and examines Indian psychology taking into consideration modern psychological concepts **A Sociology of Spirituality** Peter C. Jupp, 2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance *The New Metaphysicals* Courtney Bender, 2010-07-15 American spirituality with its focus on individual meaning experience and exploration is usually thought to be a product of the postmodern era But as *The New Metaphysicals* makes clear contemporary American spirituality has historic roots in the nineteenth century and a great deal in common with traditional religious movements To explore this world Courtney Bender combines research into the history of the movement with fieldwork in Cambridge Massachusetts a key site of alternative religious inquiry from Emerson and William James to today Through her ethnographic analysis Bender discovers that a focus

on the new on progress and on the way spiritual beliefs intersect with science obscures the historical roots of spirituality from its practitioners and those who study it alike and shape an enduring set of modern religious possibilities in the process

American Possessions Sean McCloud, 2015 American Possessions examines Third Wave evangelical spiritual warfare a contemporary movement of evangelicals focused on banishing demons from human bodies material objects land regions political parties and nation states McCloud argues that spiritual warfare provides an ideal case study for identifying some prescient tropes in modern American religion and culture Gender and Power in Contemporary Spirituality Anna Fedele, Kim E. Knibbe, 2013 Contemporary distinctions between religion and spirituality can often be traced to rebellion against hierarchical institutions with biases towards women and minorities that constrain individual freedom This opposition is carefully addressed in this volume with greater attention paid to gender and power in the context of contemporary spirituality and how these relate to the distinction between religion and spirituality **American Afterlives** Shannon Lee Dawdy, 2023-12-12 What do you think happens to you when you die And what do you want done with your body For three years Shannon Lee Dawdy travelled the U S from Vermont to California Illinois to Alabama posing such questions to a wide range of people from all walks of life Many of her interlocutors recently lost loved ones She also spoke to people who have made death their business funeral directors death care entrepreneurs designers cemetery owners and death doulas about the changes they were seeing and in many cases promoting in how the bodies of recently deceased persons are being treated and how the memory of the deceased are being memorialized in the U S Her ethnographic research resulted in this book a wide ranging investigation into rapidly changing death practices in the twenty first century United States The author is also working on a documentary film project on this topic with cinematographer Daniel Zox Still photos from the film work will appear in this book
