Spirituality and Religion Within the Culture of Medicine Dr Michael Balboni, Dr John Peteet, 2017-05-10 *Spirituality and Religion Within the Culture of Medicine* provides a comprehensive evaluation of the relationship between spirituality religion and medicine evaluating current empirical research and academic scholarship In Part 1 the book examines the relationship of religion spirituality and the practice of medicine by assessing the strengths and weaknesses of the most recent empirical research of religion spirituality within twelve distinct fields of medicine including pediatrics psychiatry internal medicine surgery palliative care and medical ethics Written by leading clinician researchers in their fields contributors provide case examples and highlight best practices when engaging religion spirituality within clinical practice This is the first collection that assesses how the medical context interacts with patient spirituality recognizing crucial differences between contexts from obstetrics and family medicine to nursing to gerontology and the ICU Recognizing the interdisciplinary aspects of spirituality religion and health Part 2 of the book turns to academic scholarship outside the field of medicine to consider cultural dimensions that form clinical practice Social scientific practical and humanity fields include psychology sociology anthropology law history philosophy and theology This is the first time in a single volume that readers can reflect on these multi dimensional complex issues with contributions from leading scholars In Part III the book concludes with a synthesis identifying the best studies in the field of religion and health ongoing weaknesses in research and highlighting what can be confidently believed based on prior studies The synthesis also considers relations between the empirical literature on religion

and health and the theological and religious traditions discussing places of convergence and tension as well as remaining open questions for further reflection and research This book will provide trainees and clinicians with an introduction to the field of spirituality religion and medicine and its multi disciplinary approach will give researchers and scholars in the field a critical and up to date analysis **Spiritual Care for Allied Health Practice** Lindsay B.

Carey, Bernice A. Mathisen, 2018-06-21 This textbook explains the importance of Allied Health Professionals providing spiritual care and gives applied information on how this can be done The first book of its kind it is essential reading for AHPs and students in order to understand how to give holistic and patient centred care **Making Sense of Spirituality in**

Nursing and Health Care Practice Wilfred McSherry, 2006 This new edition of an established introductory guide to spirituality and health care practice draws extensively on case studies illustrating the application of theory to practice It encourages the exploration through reflective activities of what spirituality means both to patients and to the healthcare professionals caring for them Making Health Care Whole Christina Puchalski, Betty Ferrell, 2011-06-01 In the last fifteen

years the field of palliative care has experienced a surge in interest in spirituality as an important aspect of caring for seriously ill and dying patients While spirituality has been generally recognized as an essential dimension of palliative care uniformity of spiritual care practice has been lacking across health care settings due to factors like varying understandings and definitions of spirituality lack of resources and practical tools and limited professional education and training in spiritual care In order to address these shortcomings more than forty spiritual and palliative care experts gathered for a national conference to discuss guidelines for incorporating spirituality into palliative care Their consensus findings form the basis of Making Health Care Whole This important new resource provides much needed definitions and charts a common language for addressing spiritual care across the disciplines of medicine nursing social work chaplaincy psychology and other groups It presents models of spiritual care that are broad and inclusive and provides tools for screening assessment care planning and interventions This book also advocates a team approach to spiritual care and specifies the roles of each professional on the team Serving as both a scholarly review of the field as well as a practical resource with specific recommendations to improve spiritual care in clinical practice Making Health Care Whole will benefit hospices and palliative care programs in hospitals home care services and long term care services It will also be a valuable addition to the curriculum at seminaries schools of theology and medical and nursing schools
