The Spitting Image Garth Boomer, Dale Spender, 1976 Video Rating Guide for Libraries ,1993 Source Book David J. WEINER, 1990 Alien Encounters Thuy Linh Nguyen Tu, Mimi Thi Nguyen, 2007-04-17 A collection of essays that examine the production and consumption of Asian American popular culture from musical expression to television cooking shows **Tobacco** .1999 War Stories Gary Kulik, 2009-10-31 War stories are mostly innocent fables and understood as such by both the teller and the hearer However they have long been used for political and national purposes and those about the war in Vietnam were no exception as painfully evidenced in the 2004 presidential campaign John Kerry campaigned as a war hero His opponents cast him as a liar and a traitor and their war story prevailed War Stories delves into the myths associated with the Vietnam veteran s experience and looks at them through the war stories they told and continue to tell Kulik conducts an extremely thorough review of the Vietnam literature and interviews participants wherever possible poking holes in the war myths of people throughout the political spectrum War Stories discusses how returning Vietnam vets were treated and delves into the myths that atrocities were commonplace that all veterans of that war suffer from PTSD and that all are guilt ridden Kulik's research and analysis of such stories lies at the heart of this book's originality and provides a new perspective on the Vietnam War for scholars students and general readers His purpose in exposing such stories is not to deny or minimize American war crimes in Vietnam but to cut through the cant of false stories so that we retain our outrage at those that are true As we are faced with future war stories from Iraq and Afghanistan and their likely exploitation the moral stance and the lessons learned in this book will be especially important Edinburgh Companion to Twentieth-Century British and American War Literature Adam Piette, 2012-03-07 The first reference to literary and cultural representations of war in 20th century English Bodies Behaviours Cultures The Cultural Impact of the Technologies of Modern War The Spaces of Modern War Genres of War Culture Key Features All new original essays commissioned from major critics and cultural historians Reflects the way war studies are currently being taught and researched in the volume's approach structure and breadth of coverage For scholars core arguments and detailed research topics For students Historically grounded topic and genre based essays useful forstudying the modern period and war modules Goethe-W∏rterbuch Rita James Simon,Rhonda M. Roorda,2007 Rita J Simon and Rhonda M Roorda s In Their Own Voices Transracial Adoptees Tell Their Stories shared the experiences of twenty four black and biracial children who had been adopted into white families The book has since become a standard resource for families and practitioners Now in this sequel we hear from the parents of these remarkable families and learn what it was like for them to raise children across racial and cultural lines Simon and Roorda's candid interviews shed light on the issues these parents encountered while

raising their children and reveal whether they received adequate preparation and training from social work professionals and adoption agencies. The authors explore what role race played during thirty plus years of parenting what lessons these parents learned about themselves and whether they would recommend transracial adoption to others Combining trenchant historical and political data with absorbing firsthand narratives. Simon and Roorda once more bring a unique scholarly and human dimension to the literature on transracial adoption. Issues and Singularity in the British Media Volume 2 Renée. Dickason, David Haigron, 2024-07-16. This book offers a historical cultural political and socio economic analysis of the British media. It examines how facts and events are reported and interpreted but also how ideas and opinions circulate and are recycled with attention being paid to British traits and tropes in these domains. This in depth study of issues and singularity aims at understanding how the British media have helped shape the country's culture and representations thereby providing its people with a sense of togetherness Volume 2 focuses on radio and mostly television broadcasting from the interwar period to the early 21st century. In order to apprehend what is deeply engrained in British culture and thus contributes to shaping national identity it analyses the ideas disseminated and reflected not only in programmes but also within media institutions in the face of changing political contexts as well as providing a historiographical overview.
