Plaindealer William Leggett, 1836 *The Plaindealer*, 1836 **Annual Co-operative Congress**, 1925 **The Pacific Railroad** Henry Wilson, 1859 The Future of Football Jon Garland, Dominic Malcolm, Mike Rowe, 2013-11-05 World football has undergone unprecedented change over the past decade On the field the richest European clubs have retained their pre eminence but with multinational playing squads backed up by global marketing industries Club ownership rests increasingly with impersonal shareholders rather than local business figures Domestic and international football competitions are being transformed by the financial power of the mass media The world's top players are paid far more than their peers from previous eras This volume covers a wide range of topical issues which football players fans and administrators will have to confront in the years to come **Munsey's Magazine**, 1913 *De Bow's Review*, 1858 Munsey's Weekly, 1913 **The Congregational Quarterly**, 1927 Includes critical reviews Errant Natures and Wayward Bodies in Late-Victorian Speculative Fiction Adrian Tait, 2025-09-04 Adrian Tait argues that late Victorian stories represent an important but still neglected part of a green literary tradition setting up a dialogue with modernity that is no less relevant today Late Victorian literature is full of fascinating examples of what was then called the scientific romance an emerging form of science or speculative fiction whose concern with the liveliness or agentiality of the nonhuman animal and more than human natural world today makes it particularly noteworthy In a succession of short stories and novels many now forgotten writers such as Grant Allen John Davidson George Griffith and Henry Marriott Watson dramatized the possibility that Nature had not been conquered by industrial modernity but might instead be reacting to it with an unexpected dynamism Long before environmental issues such as climate change came to the public's attention they asked whether humankind might one day inadvertently create existential threats to its own survival In so doing these pioneers of sf depicted their world in terms that anticipate the recent new materialist focus on a mutable and dynamic reality responsive and perhaps resistant to human endeavor
