Spoken Burmese One:

One Thousand Languages Peter Austin, 2008 Presents an overview of the living endangered and extinct languages of the world providing the total number of speakers of the language its history and maps of the geographic areas where it is presently spoken or where it was spoken in the past **Spoken Burmese**, 1979 *The Languages and Linguistics of Mainland Southeast Asia* Paul Sidwell, Mathias Jenny, 2021-08-23 The handbook will offer a survey of the field of linguistics in the early 21st century for the Southeast Asian Linguistic Area The last half century has seen a great increase in work on language contact work in genetic theoretical and descriptive linguistics and since the 1990s especially documentation of endangered languages The book will provide an account of work in these areas focusing on the achievements of SEAsian linguistics as well as the challenges and unresolved issues and provide a survey of the relevant major publications and other available resources We will address Survey of the languages of the area organized along genetic lines with discussion of relevant political and cultural background issues Theoretical descriptive and typological issues Genetic classification and historical linguistics Areal and contact linguistics Other areas of interest such as sociolinguistics semantics writing systems etc Resources major monographs and monograph series dictionaries journals electronic data bases etc Grammar sketches of languages representative of the genetic and structural diversity of the region *United States Armed Forces Institute Catalog* United States Armed Forces Institute, 1963 **Resources in Education**, 1986 **Research in Education**, 1974

The Routledge International Handbook of Language Education Policy in Asia Andy Kirkpatrick, Anthony J. Liddicoat, 2019-04-17 This must have handbook offers a comprehensive survey of the field It reviews the language education policies of Asia encompassing 30 countries sub divided by regions namely East Southeast South and Central Asia and considers the extent to which these are being implemented and with what effect The most recent iteration of language education policies of each of the countries is described and the impact and potential consequence of any change is critically considered Each country chapter provides a historical overview of the languages in use and language education policies examines the ideologies underpinning the language choices and includes an account of the debates and controversies surrounding language and language education policies before concluding with some predictions for the future **Burmese (Myanmar)** John Okell, 2016-05-10 The third volume in a four part language course this textbook enables students to become competent in reading and writing Burmese script Most students find it helpful to begin learning the script at the same time they start on the spoken language but this volume can be used independently if preferred In addition to lists of words for reading and writing practice presented in a series of short graduated lessons Okell includes sample texts from Burmese materials such as product labels newspaper headlines and maps Appendices on handwriting and cursive forms display fonts the Burmese names of the characters Burmese alphabetical order and common abbreviations round out the book One of the challenges of learning a non Roman script language from traditional course books is that the use of the Roman alphabet to

describe sounds is not as effective as hearing the sounds The extensive audio files that accompany this volume allow the learner to hear and produce the sounds corresponding to the symbols Language professors and their students or those learning Burmese on their own will appreciate the accessible approach and the manageable size of the lessons of the very practical textbooks in this series The Sino-Tibetan Languages Randy J. LaPolla,Graham Thurgood,2006-05-17 There are more native speakers of Sino Tibetan languages than of any other language family in the world Records of these languages are among the oldest for any human language and the amount of active research on them both diachronic and synchronic has multiplied in the last few decades This volume includes overview articles as well as descriptions of individual languages and comments on the subgroups in which they occur In addition to a number of modern languages there are descriptions of several ancient languages The Mainland Southeast Asia Linguistic Area Alice Vittrant,Justin Watkins,2019-06-04 This book lies at the crossroads of areal typology language contact and genetic affiliation Concerned with mainland Southeast Asia in particular the various grammatical sketches lay emphasis on characteristics shared by unrelated languages
