Spoken French in Review Quentin M. Hope, 1963 **Spoken French in Review** Quentin Manning Hope, 1963 *On Spoken French* William J. Ashby, 2023-03-15 This scholarly edition invites us to reconsider our assumptions about the French language by showcasing the oeuvre of one of the pioneers of diachronic Spoken French corpus linguistics William J Ashby and the ground breaking findings to come out of his influential Tours corpora 1976 1995 including two real time studies appearing for the first time in English translation To help readers visualize just how radically different the morphosyntax morphophonology and semantics of Spoken French are from French on the page the editor has developed a glossing framework designed to capture the systemic radically prefixal morphology of Spoken French and the variability of change in progress The model presented here and used to gloss the examples from the Tours corpus is also suitable for corpus tagging The volume is organized into sections preceded by an Editor's note and followed by suggestions for further reading and closes with an appendix of French corpora This scholarly edition was written for advanced undergraduates graduate students and scholars in the field

Norm and Ideology in Spoken French David Hornsby, 2020-10-19 This volume offers a diachronic sociolinguistic perspective on one of the most complex and fascinating variable speech phenomena in contemporary French Liaison affects a number of word final consonants which are realized before a vowel but not prepausally or before a consonant Liaisons have traditionally been classified as obligatoire obligatory interdite forbidden and facultative optional the latter category subject to a highly complex prescriptive norm This volume traces the evolution of this norm in prescriptive works published since the 16th Century and sets it against actual practice as evidenced from linguists' descriptions and recorded corpora The author argues that optional or variable liaison in French offers a rich and well documented example of language change driven by ideology in Kroch's 1978 terms in which an elite seeks to maintain a complex conservative norm in the face of generally simplifying changes led by lower socio economic groups who tend in this case to restrict liaison to a small set of traditionally obligatory environments
