Lane, 2018-04-17 Formulation remains one of the most important activities that those using psychological approaches undertake as part of their work Arguably however formulation is an activity that remains poorly understood In a current climate demanding quick fix solutions there is a tendency which the authors refuse towards over simplification Instead this book sets out to explore the challenging complexity of psychological formulation By drawing on a wide range of sources from psychology and the arts the authors find ways to honour the stories clients tell yet offer key psychological insights to facilitate change They provide a clear guide to enable the reader to think about the purpose of their work with clients the perspectives which inform it and the process used to ensure effective outcomes The chapters supported by exercises on key issues examine key debates on the role of formulation in professional practice a framework for developing a systematic approach to formulation and a detailed account of the purpose perspective and process of formulation Urban Voices Susan Lobo, 2002-12 California has always been America s promised land for American Indians as much as anyone In the 1950s Native people from all over the United States moved to the San Francisco Bay Area as part of the Bureau of Indian Affairs Relocation Program Oakland was a major destination of this program and once there Indian people arriving from rural and reservation areas had to adjust to urban living They did it by creating a cooperative multi tribal community not a geographic community but rather a network of people linked by shared experiences and understandings The Intertribal Friendship House in Oakland became a sanctuary during times of upheaval in people s lives

and the heart of a vibrant American Indian community As one long time resident observes The Wednesday Night Dinner at the Friendship House was a must if you wanted to know what was happening among Native people One of the oldest urban Indian organizations in the country it continues to serve as a gathering place for newcomers as well as for the descendants of families who arrived half a century ago This album of essays photographs stories and art chronicles some of the people and events that have played and continue to play a role in the lives of Native families in the Bay Area Indian community over the past seventy years Based on years of work by more than ninety individuals who have participated in the Bay Area Indian community and assembled by the Community History Project at the Intertribal Friendship House it traces the community's changes from before and during the relocation period through the building of community institutions It then offers insight into American Indian activism of the 1960s and 70s including the occupation of Alcatraz and shows how the Indian community continues to be created and re created for future generations Together these perspectives weave a richly textured portrait that offers an extraordinary inside view of American Indian urban life Through oral histories written pieces prepared especially for this book graphic images and even news clippings Urban Voices collects a bundle of memories that hold deep and rich meaning for those who are a part of the Bay Area Indian community accounts that will be familiar to Indian people living in cities throughout the United States And through this collection non Indians can gain a better understanding of Indian people in America today If anything this book is expressive of it is the insistence that Native people will be who they are as Indians living in urban communities Natives thriving as cultural people strong in Indian ethnicity and Natives helping each other socially spiritually economically and politically no matter what I lived in the Bay Area in 1975 79 and 1986 87 and I was always struck by the Native many people do say American Indian emphatically community and its cultural identity that has always insisted on being second to none Yes indeed this book is a dynamic living document and tribute to the Oakland Indian community as well as to the Bay Area Indian community as a whole Simon J Ortiz When my family arrived in San Francisco in 1957 the people at the original San Francisco Indian Center helped us adjust to urban living Many years later I moved to Oakland and the Intertribal Friendship House became my sanctuary during a tumultuous time in my life The Intertribal Friendship House was more than an organization It was the heart of a vibrant tribal community When we returned to our Oklahoma homelands twenty years later we took incredible memories of the many people in the Bay Area who helped shape our values and beliefs some of whom are included in this book Wilma Mankiller former Principal Chief Cherokee Nation Circling San Francisco Bay Ginny Anderson, 2006 Ginny Anderson is a sure footed guide not only to natural treasures in the Bay Area but to the richness of our inner experience Circling San Francisco Bay brings the outer and inner worlds together It is a gift to the community of life and a valuable tool for deeper connection a book that not only informs but also enchants Lauren deBoer executive editor EarthLight magazine Shamanic naturalist Ginny Anderson takes us to seven sacred sites around San Francisco Bay to gain a better understanding of their connections and ours in the complex

Storytelling in Management Practice Stefanie Reissner, Victoria Pagan, 2013-06-03 Since the early 2000s storytelling as a means of managerial communication has been increasingly advocated with a focus on the management practices of leadership change and organizational culture Most research on storytelling in management practice derives from practitioner experience but little is known about the specific dynamics behind storytelling as a tool for managerial communication This book derives from one of the first research studies into storytelling in management practice which sought to evaluate the assumed but not necessarily proven effectiveness of storytelling as a management tool Building on existing theories of narrative and storytelling in organizations the book explores how managers use storytelling in their daily practice revealing that it can be employed both purposively like a tool and perceptively spontaneously and intuitively The book explains that storytelling has different functions in management practice at different levels of the organization such as Creating direction for the organization Translating strategic messages into operational ones and supporting the professional development of staff Shaping the organization s social fabric through the sharing of personal stories Aided by a wealth of interviews and case studies Storytelling in Management Practice reveals an analysis of the dynamic relationship between story storyteller audience and organizational context As such it will be useful for students and researchers working across a variety of sub disciplines including leadership organizational behaviour and business communication
