Ten Years of German Unification Jörn Leonhard, Lothar Funk, 2002-04-30 In May 2000 scholars of history law politics and economics gathered in London to compare their various methodological and empirical perspectives on the 1989/90 collapse of the Germanies into a unity and the aftermath of the event from the perspective of a decade on Their 14 studies cover histo *Ten Years of German Unification* Jörn Leonhard, Lothar Funk, 2001 *Fall and Rise of the PDS In Eastern Germany* D Hough, 2002-05-01 The Democratic Socialism party of East Germany Partei des Demokratischen Sozialismus was widely thought to have no future in a reunified Germany says Hough German studies U of Birmingham He explores how it has become a stable institution in the political landscape by establishing itself as **Approaches to the Study of**

Contemporary Germany Jonathan Grix, 2002-09-30 The 10 essays of this collection are derived from a group of courses developed by the U of Birmingham s UK Institute for German Studies which is devoted to the social sciences The essays consider the British research methods used for studying issues in Germany by researchers in economics pol **East**

German Distinctiveness in a Unified Germany Jonathan Grix, P Cooke, 2003-02-28 This book explores the nature of the dramatic growth in a distinct sense of East German identity in the years since the events that led to formal unification in 1990 While it is problematic to see East Germanness as a singular and homogenous identity it can be perceived as a distinctive phenomenon and a level of identification that exists alongside local regional and national identities The essays in this volume hope to challenge the commonly held misconception that East German regional identity is a problem that needs to be overcome in the process of unification Through analyses of the social political and cultural behaviour of East Germans and their perception of their own place in German society this volume makes a complex and nuanced contribution to discussions on German national identity and the unification process **Fifty Years of the German Mark J.**

Hölscher, 2001-08-07 This timely collection presents an authoritative overview of one of the three key currencies of the second half of the twentieth century the German Mark In his keynote essays Charles A E Goodhart reflects on the future of the Euro against the background of the success story of the Deutsche Mark His main concern is whether fiscal policy in Euroland will be ready for action in case of an economic downturn He also wonders whether the European Central Bank will be the same safeguard against inflation as the Bundesbank was On the same issue of stability orientation Hans Tietmeyer reviews the fifty years lifetime of the German Mark pointing out that the Bundesbank will continue to have a say within the European Central Bank In particular he emphasizes the vital part of the Deutsche Mark as cornerstone of the so called Social Market Economy in postwar Germany The volume will be of great interest to academics and practitioners alike **German Literature in the Age of Globalisation** Stuart Taberner, 2004-11-01 Literary fiction in Germany has long been a medium for contemplation of the nation and questions of national identity From the mid 1990s in the wake of heated debates on the future direction of culture politics and society in a more normal united country German literature has become increasingly

diverse and seemingly disparate at the one extreme it represents the attempt to reinvent German traditions at the other the unmistakable influence of Anglo American forms and pop literature A shared concern of almost all of recent German fiction however is the contemporary debate on globalisation its nature impact and consequences for local culture In its engagement with globalisation the literature of the Berlin Republic continues the long established practice of reflection on what it is to be German This book investigates literary responses to the phenomenon of globalisation The subject is approached from a wide range of thematic and theoretical perspectives in twelve chapters which taken together also provide an overview of German fiction from the mid 1990s to the present The book serves both as an introduction to contemporary German literature for university students of German and as a resource for scholars interested in culture and society in the Berlin Republic

German Cinema David Clarke, 2006-01-01 Edited book offering a survey of recent German cinema **On Their Own Terms** H Schmitz, 2004-06-16 On Their Own Terms is a study of how post 1990 German literature reconfigures the legacy of National Socialism and the Holocaust In five sections Historisation Perpetrators Hitler Youth Memories War Memories and Victim Perspective a number of key literary works such as Bernhard Schlink's *Der Vorleser* Martin Walser's *Ein springender Brunnen* Gunter Grass's *Im Krebsgang* and W G Sebald's *Austerlitz* are analysed The literary texts are situated within the wider context of contemporary German debates on the issue from the exhibition *Crimes of the German Wehrmacht 1941 1945* to the Walser Bubis affair and the ensuing debate about representations of German suffering One of the central concerns of this book is the literary configuration of German experience and the narrative strategies employed by the writers to validate it against or set it in context with a perspective of victim experience **Economic Transition, Unemployment and Active Labour Market Policy** Corinne Nativel, 2004-05-26 No Marketing Blurb **Germany's Two Unifications** R. Speirs, J. Breuilly, 2004-12-06 Germany's unique historical experience of undergoing national unification twice in a little over a century makes it a fascinating object of study In this volume the processes of unification are analysed from the point of view of historians political scientists and literary historians Because each event had quite different historical pre conditions the first having been long anticipated and pursued whereas the second took virtually all participants by surprise the processes of adjustment to it have differed in many ways Yet in each case the idea of national unity has held sway powerfully as a norm guiding the responses of those involved **Historical Dictionary of Contemporary Germany** Derek Lewis, Ulrike Zitzlsperger, 2016-10-18 This second edition of *Historical Dictionary of Contemporary Germany* provides a comprehensive overview of most aspects of life and institutions in contemporary Germany It also introduces the reader to the historical development of both East and West Germany between 1949 and 1990 and addresses the various issues arising from reunification This second edition of *Historical Dictionary of Contemporary Germany* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students

O. Pritchard, 2000 This work considers the problems of the socialist legacy left by the unification of Germany as East Germans adjusted to uncertainties in employment education family life and immigration **Directory of Published Proceedings**, 2003 Deutschland Archiv, 2004 Política y estrategia, 2007 **The British National Bibliography** Arthur James Wells, 2003 *De-coding New Regionalism* James W. Scott, 2016-05-13 Bringing together comparative case studies from Central Europe and South America this book focuses on new regions regions created as political projects of modernization and re scaling Through this approach it de codes New Regionalism in terms of its contributions to institutional change while acknowledging its contested nature and contradictions It questions whether these regions are merely a strategy of neo liberal adjustment to changing political and economic conditions or whether they are indicative of true reform greater citizen participation and empowerment It assesses whether these regions are really representing something new or whether they are a reconfiguration of traditional power relationships It provides a timely critical analysis of region building and the extent to which national processes of decentralization and sub national processes of regionalism can enhance the effectiveness and responsiveness of governance
